

COLLEGE OF DUPAGE

NUCLEAR MEDICINE TECHNOLOGY PROGRAM

Advanced Certificate Summer 2025

Jamie Noble
Program Chair

Application Deadline: February 27, 2025 at 5 pm

Note: Please see specific program registration or admission packets for detailed information on when to begin completing health requirements, drug tests, CPR, criminal background checks and proof of insurance submission. Timing varies depending upon either entrance to or participation in the clinical component of a given program. Funds paid to Edward Corporate Health or to a personal health care provider/ source, CastleBranch.com, insurance companies, and funds used towards CPR completion are not eligible for any sort of refund from College of DuPage if the required course(s) are not successfully completed.

Note: Students are not accepted into this program until they receive an official acceptance letter from the Nursing & Health Sciences Division.

COLLEGE OF DUPAGE
Nursing and Health Sciences Division

425 Fawell Blvd.
Glen Ellyn, IL 60137-6599
(630) 942-8331

Dear Applicant:

Thank you for your interest in the Nuclear Medicine program at College of DuPage. This packet of information has been developed to provide you with a complete overview of our program, including the process for admission.

Although Nuclear Medicine is considered an Advanced Certificate program, it is highly advised that students follow the recommended course sequence listed in this packet.

The application and all materials must be received by the application deadline in order to be reviewed by the Nuclear Medicine Technology Admissions Committee.

If you have any questions, or I can be of assistance, please do not hesitate to contact me at noblej4169@cod.edu.

Sincerely,

Jamie Noble, MSC, CNMT, RT(R)(N)
Program Chair
Nuclear Medicine
www.cod.edu/nuclear-med

MISSION STATEMENT

The primary goal of the Nuclear Medicine Technology program is to educate students with didactic, laboratory and clinical experiences in preparation for a health career as a Nuclear Medicine Technologist. The graduate will deliver compassionate patient care in the use of radiopharmaceuticals and imaging technique, and function as an integral member of the health team with competence and confidence.

NUCLEAR MEDICINE TECHNOLOGY

Nuclear Medicine is the scientific and clinical discipline involving the diagnostic, therapeutic and investigative use of radionuclides. The skills of the Nuclear Medicine Technologist are important to the Nuclear Medicine physician, other health professionals and especially the patient.

Nuclear Medicine Technologists perform the following: attend to patient needs; abstract data from patient records; calculate doses for In Vivo and In Vitro studies; prepare and administer radiopharmaceuticals; operate scanning equipment, perform computer acquisition and analysis of patient studies; and assist the physician when using radiopharmaceuticals.

NUCLEAR MEDICINE TECHNOLOGY PROGRAM

The Nuclear Medicine Technology program is a 15-month program. Classes are held on Wednesdays and Thursdays during the first summer semester, Tuesdays and Thursdays during the fall and spring semesters, and Tuesdays during the final summer semester. The clinical education component is conducted on Mondays, Wednesdays, and Fridays at the assigned clinical affiliate (hospital) from August through May, and on Mondays, Wednesdays, Thursdays and Fridays during the final summer semester. The clinical hours generally run from 7 a.m. to 3:30 p.m. Students report to the clinical affiliate on the assigned days. The student must be able to provide transportation to and from the college and clinical sites.

The program delivers more than 500 hours of classroom and lab learning activities. More than 1,000 hours of clinical education is provided over the entire 15-month sequence. The Nuclear Medicine program is accredited by the Joint Review Committee on Education in Nuclear Medicine Technology.

Upon successful completion of the Nuclear Medicine Technology program, the graduate is eligible to sit for the certification exams administered by the Nuclear Medicine Technology Certification Board (NMTCB) and the American Registry of Radiologic Technologist (ARRT).

ADMISSIONS

The program can admit only a limited number of students. The number of students selected is determined by the current availability of clinical sites and may vary from year to year. Students will only attend sites that can provide adequate supervision and an appropriate learning environment. In the event that the number of **qualified applicants** exceeds the number of available clinical spaces, the selection will be made via the Merit Evaluation criteria, which is included in this brochure. The selection process has been established to admit the most qualified students.

In order to determine the most qualified students, a Merit Evaluation Form is completed of a student's prior-earned college coursework or equivalent. Merit points are awarded for the following: level of college degree, pre-requisite course grades, and patient care experience. **Associate's Degree must be completed prior to start date in Summer semester.**

The qualified student with the highest point totals and resides in-district **will have priority for admission.** Those students not admitted but who are eligible, will be placed on an alternate list. Students will be admitted in rank order with the student who has the highest number of points being appointed first.

Admission decisions are made following the application deadline. Letters of acceptance are then sent via email to

each applicant who has been named by the Admissions Committee approximately 4-6 weeks from the deadline date. Each applicant must in turn, acknowledge their acceptance of appointment in writing (on a provided form) and return it via email to hsadmissions@cod.edu. The applicant is given two weeks to respond. If no response is received, seats are filled from the alternate list. Each applicant who accepts admission to the program **MUST** attend the Program Orientation. Information concerning the Program Orientation is included in the letter of acceptance.

AFTER PROGRAM ACCEPTANCE

After program Acceptance, students will complete the specific Health Requirements. Please click on [Health Requirements Packet](#). **However, please do not begin these requirements until instructed to do so.** You will also complete a Criminal Background Check, Drug Screen, and Medical Document Manager piece through [CastleBranch.com](#). The results of a background check are posted to the CastleBranch web site in a secure, tamper-proof environment, where the students, as well as the program chair can view the background check as well as drug test and health records.

Requests for deferred admission are **not** automatically carried over to the following cycle. Applicants who were not accepted for the cycle in which they originally applied are asked to pay the \$50 non-refundable Health Science application fee and submit any/all supporting documents as listed on the Admissions Checklist of the Application Packet requirements (if applicable).

INTERNATIONAL STUDENT ADMISSION

Prior credits earned at institutions outside the continental United States must be translated and evaluated in detail for credit that is acceptable to College of DuPage. In addition, English 1101 and 1102 (Composition) and Speech 1100 must be completed prior to application deadline, as well as all other requirements listed on page 9 in order to be considered for admission. Evaluation forms can be obtained at www.ece.org.

POLICY REGARDING OUT-OF-DISTRICT APPLICANTS

Program Admission Preference:

Each program with out-of-district clinical sites (see list of participating programs below) may admit a maximum of 20% of out-of-district applicants to the program, based on merit. The 20% maximum policy would only apply to out-of-district applicants who do **not** have access to a particular program in the **community college district in which they reside**. Students coming from districts with a particular program within their district would only be considered if there were open seats after all qualified candidates from in-district and out-of-district without programs were accepted.

If there are insufficient numbers of qualified in-district applicants, the maximum percentage of out-of-district students accepted can be exceeded until the program achieves full enrollment, with the approval of the Dean of Nursing & Health Sciences.

- Computed Tomography
- Health Information Technology
- Magnetic Resonance Imaging Technology (MRI)
- Mammography
- Nuclear Medicine (DMIN)
- Nursing (ADN)
- Physical Therapist Assistant (PTA)
- Radiation Therapy
- Radiography (DMIR)
- Respiratory Care
- Sonography (Ultrasound) DMIR
- Speech Language Pathology Assistant (SLPA)

- Surgical Technology

Priority for Admission:

- a. In-District applicants
- b. Out-of-District who are part of the [CAREER Consortium Agreement](#) (meaning your residing community college does not offer the particular program in which you are applying) and Lewis University 3+1 BS program applicants
- c. Out-of-District applicants working full-time in-district (proof of in-district employment will be required each semester)
- d. Out-of-District applicants (who are not part of the CAREER Consortium Agreement) including those students with a joint or chargeback agreement and International students

PROGRAM INFORMATION DISCLAIMER

This program information is published for that purpose only; however, the information in this packet is not to be regarded as an irrevocable contract between the student and the program. The program reserves the right to change, at any time, without notice, graduation requirements, fees and other charges, curriculum, course structure and content, and other such matters as may be within its control, notwithstanding any information set forth in this program information packet in accordance with College of DuPage policies and procedures.

Policies and Procedures

All Nursing and Health Science Division policies and procedures are found on our [Division website](#). It is the students' responsibility to ensure they have reviewed and understand the policies and procedures. The Nursing and Health Science Division reserves the right to change, at any time, without notice, these policies and procedures.

ADVANCED PLACEMENT

The Program of Nuclear Medicine Technology, due to the fifteen-month intense training period, will not accept advanced placement for students who have already attended the College of Dupage or another Nuclear Medicine Technology Program. All coursework and competency requirements must be completed while a student of the currently enrolled in the College of Dupage program.

The only exception is the Sectional Anatomy course. If a student has completed a Sectional Anatomy course previously, they should contact the Program Chair for clarification if the class they took previously will transfer and they will be waived from completing the program Sectional Anatomy course.

NON-DISCRIMINATION POLICY

Non-Discrimination Policy The College prohibits discrimination in its admissions, employment, and educational programs or activities on the basis of race, color, sex, religion, creed, national origin, age, ancestry, marital status, sexual orientation, gender identity and expression, arrest record, military status or unfavorable military discharge, citizenship status, and physical or mental disability. The College will protect an individual's right to express their viewpoint or opinion, so long as it does not violate State or Federal law and is not detrimental to the College. This Policy against discrimination applies throughout all College environments, whether on campus, at work assignments off campus, at College-sponsored social functions, or otherwise. Procedures to facilitate the College's prohibition of discrimination will be promulgated consistent with the Policy. (Board Policy 20-5).

ADMISSION REQUIREMENTS

All students applying for the program must complete the steps below by the application deadline of **5pm on February 27, 2025**.

NOTE: Admission Committees for all Health Science programs have the right to deny admission to any applicant that they feel is unable to fulfill these essential functions as described.

****IT IS THE STUDENT'S RESPONSIBILITY TO ENSURE THAT ALL STEPS HAVE BEEN COMPLETED AND THAT ALL INFORMATION HAS BEEN RECEIVED BY THE DESIGNATED OFFICES.**

**** Students with incomplete information will not be considered for placement.**

APPLICATION CHECK LIST

- _____ 1. Register to attend a mandatory **Nuclear Medicine** group [Advising Session](#) AND/OR individual communication with the program chair. **It is required that an applicant attend an advising session within a 12-month period prior to the application deadline.**

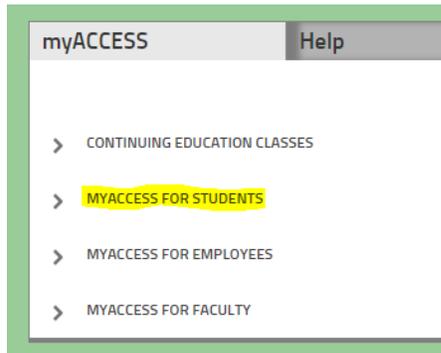

- _____ 2. If you have not been admitted to College of DuPage, please complete the **non-refundable \$20** [College of DuPage General Admissions Application](#) online. **This application is for general admissions to College of DuPage only; it is not an application to the Health Sciences Selective Enrollment Nuclear Medicine program.**

- _____ 3. To ensure that all of your eligible credits are evaluated towards the admission requirements, turn in **ALL** official Transcripts from institutions that you have attended. Immediately:
 - a. Submit your official transcript(s) to **College of DuPage, Office of Student Records**. *If College of DuPage is the only institution you have attended, you do not need to request official transcripts.*

 - b. Verify receipt of your transcript(s). Log into myACCESS account, click on 'myACCESS for Students', select '**My Profile**'. The receipt status of your transcript will be listed under '**Transcript Institutions**'.

NOTE: If you have an international transcript from high school or college, it must first be evaluated. Please visit the following website <https://www.cod.edu/records/international-transcript-evaluation.aspx> for details.

- _____ 4. Complete the **non-refundable \$50** [Health Career Selective Enrollment Program Application](#) online by logging into the student portal at <https://inside.cod.edu>
 - Click on myACCESS for Students

- Click on the Health Careers Applications link

- Select Health Careers Application

- Select **Diagnostic Medical Imaging Nuclear Medicine Certificate** when asked “What selective enrollment program are you applying to?”

Once the application is submitted, you may not change the term or program. If you do not have a credit card, you can purchase a prepaid credit card from your local retailer

_____ 5. Complete the [College of DuPage Residency Verification form](#) and provide proof of residency to the **Office of Student Registration Services, Student Services Center (SSC) Room 2221** by the program application deadline date. You **MUST** send from your @dupage.edu e-mail address.

Note:

- **If this residency requirement has not been submitted to Registration by the program application deadline date, you will not be considered for admission.**

- **Separate Residency Verification Forms must be submitted for each program application.**

- _____ 6. If you are an International student, you must submit a copy of your current Permanent Resident card and/or Employment Authorization Documentation (EAD) card prior to the application deadline and e-mail proof to hsadmissions@cod.edu.
- _____ 7. Associate's Degree must be completed or enrolled in Lewis University 3+1 BS program and official Transcripts confirmed by June 1, 2025.
- _____ 8. Only grades of "C" or above in any of the prerequisite courses, listed on page 9, will be accepted. The more courses that are completed **prior to the February 27th admission deadline**, the more merit points you can receive. **NOTE:** Courses that are "in progress" will not be calculated into the MERIT scoring.
- _____ 9. Completion of the ALEKS Math Placement Test, with a minimum score of 46 ALEKS, **ONLY** if your completion of college MATH course (options: MATH 1431, 1428, or 1102) is greater than 5 years old from the application deadline date. (If college MATH course was taken prior to 2/27/2020, then you will be required to take the ALEKS Math Placement test).
- _____ 10. Documentation of two (2) years Direct Patient Care Experience OR completion of **ONE** of the below Health Sciences courses (stated on your Official Transcript). Proof of two years of direct patient contact documentation must be completed on company letterhead by your employer/supervisor. It is the responsibility of the student to submit the official letter to hsadmissions@cod.edu.

Please submit all necessary transcripts to the College of DuPage Office of Student Records, SRC 2150 or evaluation@cod.edu in order to receive credit for any of the below courses. If NONE of the courses below are stated on your official transcript; you may submit a copy of your course certification completion to hsadmissions@cod.edu.

Choose **ONE** of the following (equivalent competency):

- FIRE 2271; Emergency Medical Technician-Basic-EMT-B
- NURSA 1105; Basic Nurse Assistant
- HLTHS 1123; Phlebotomy for Health Professionals
- HLTHS 1122; Basic Phlebotomy Techniques

- _____ 11. Please submit a Personal Statement to hsadmissions@cod.edu including your academic and professional goals. The personal statement should include, but not limited to, current goals and future plans if accepted into the Nuclear Medicine program. Please include reasons as to what lead you to choose this career path and your hopes/goals for the future in this field. If possible, include details of your prior healthcare experiences and examples.

The personal statement should be 2-3 paragraphs, double spaced and should be typed using a word processing program. It should be formatted as either a PDF or Word document (.PDF .DOC). The submission will be scored on the quality of your statement as well as your ability to communicate efficiently. The statement should be sent in English. Please note that poor grammar or punctuation can affect your score. Only one personal statement submission will be accepted.

Personal statement file should be label with your first and last name and program interested in. For example: "Jamie.Noble Nuclear Medicine 2025 Program.DOC"

Please email your completed personal statement to: hsadmissions@cod.edu

ACADEMIC PREREQUISITES

1. Associate's degree or higher OR enrolled in Lewis University 3+1 BS program
2. Two (2) years Direct Patient Care Experience OR equivalent coursework*.

*(equivalent courses listed on page 8)

3. Personal Statement

4. Prerequisite Courses: (Grade of 'C' or higher is required). All of the following prerequisite coursework must be completed and **validated** prior to **June 1, 2025**. **NOTE:** The more courses that are completed prior to the application deadline of **February 27th**, the more merit points you will receive. Courses that are "in progress" will NOT be calculated into the MERIT scoring.

Prerequisite Science & Mathematics Core Courses	
Chemistry 1211 or 1551	Chemistry with laboratory
Math 1431 – Precalculus I <u>OR</u> Math 1428 – College Algebra with Applications <u>OR</u> Math 1102 – Mathematics for Health Sciences <u>OR</u> higher (5-year date restriction for all) (If MATH 1431, 1428, or 1102 was taken prior to 2/27/2020 , then you will be required to take the ALEKS Math Placement test). The ALEKS Math Placement Test must be taken ONLY if the college math course is greater than 5 years from the application deadline date . You must obtain a minimum score of 46 on the ALEKS Math Placement Test. (This is not a replacement test for the above MATH courses).	Option of Precalculus I, College algebra, or Math for Health Sciences (5-year date restriction)
Physics 1100 or higher (NOTE: If you are a JRCERT graduate, then you do NOT need)	General physics
Two (2) semesters of Anatomy & Physiology are required. A& P 1551/1571 <u>and</u> 1552/1572	Human anatomy and physiology with laboratory

General Prerequisite or Program Co-Requisite Course	
HLTHS 1110 (Biomedical Terminology)	Medical terminology content
English 1101 (or higher)	Written communication
Speech 1100	Oral communication

Equivalent coursework may be considered as a substitution for the above listed courses. Any coursework wanting to be considered should be submitted to the DMIN program &/or Records for review and approval.

COLLEGE OF DUPAGE
NUCLEAR MEDICINE TECHNOLOGY ADMISSIONS SELECTION CRITERIA
MERIT EVALUATION

(Subject to change; ALL applicants for each cycle will be evaluated on same selection criteria)
For your reference only; admissions committee completes this form. Do not fill out and submit

NAME: _____

ID Number: _____

Points

1. Applicants must have an AA Degree or Higher OR be enrolled in Lewis University 3+1 program. _____

College Degree:

Master's or above = 4 points

Bachelor's = 3 points

Associate's = 2 points

*Enrolled in Lewis University 3+1 program=2 points

2. Holds a current Certified Radiologic Technologist (ARRT) license from the American Registry of Radiologic Technology. *(Scale A)* _____

3. **Pre-requisite courses** (or equivalent):

a. Chemistry 1211 or 1551 *(Scale B)* _____

b. Math 1431 or 1428 or 1102 or higher *(Scale B)* _____

OR

ALEKS Math Placement Test (with a minimum score of 46 ALEKS) *(Scale A)*

(NOTE: The ALEKS test will be acceptable ONLY if the MATH course is greater than 5 years old). -----

c. Physics 1100 or higher *(Scale B)* _____

d. Anatomy & Physiology 1551/1571 and 1552/1572 *(Scale B)* _____

e. English 1101 *(Scale B)* _____

f. Speech 1100 *(Scale B)* _____

4. Total Years of Professional Experience or Direct Patient Care Experience: _____

>10 years = 4 pts

5-10 years = 3 pts

2-4 years = 2 pts

0-2 years = 0 pts

OR

Completion of ONE of the following courses (or equivalent competency):

a. FIRE 2271; Emergency Medical Technician (EMT) *(Scale A)* _____

b. NURSA 1105; Basic Nurse Assistant *(Scale A)* _____

c. HLTHS 1122; Basic Phlebotomy Techniques *(Scale A)* _____

d. HLTHS 1123; Phlebotomy for Health Professionals *(Scale A)* _____

5. Personal Statement (Up to 4 points) _____

6. Interview of qualified applicant (Up to 4 points) _____

*Note it is at the discretion of the Program Chair if interviews will to be held based on the number of applicants at the time of the application deadline and available seats in the program.

Scale A	Scale B
---------	---------

Yes = 1	A = 4 pts	C = 2 pts
No = 0	B = 3 pts	D or below = 0 pts

STANDARD SKILLS IN NUCLEAR MEDICINE TECHNOLOGY

To participate in the clinical education portion of the Nuclear Medicine Technology program, the applicant must possess additional non-academic skills. These technical standards are consistent with the duties of the entry-level technologist in a professional position and these skills, which protect the health and well-being of patients, may include, but are not limited to the following:

Please click on the following link for the list of [Essential Function](#).

If, after determining through the Office of Access and Accommodations a student is unable to complete the essential functions as described with or without accommodations, the DMIN Admission Committee has the right to deny admission to any applicant. Students who feel they have been discriminated against by basis of disability should refer to the Student Complaint Process housed at: <https://www.cod.edu/student-life/dean-of-students/>.

PROGRAM ORIENTATION

A mandatory Program Orientation session is held prior to the first day of class. Further information is given once applicants are selected for admission into the program.

A document titled "The Program Design" is distributed to each student during the first day of the program. The Program Design contains all pertinent information about the program, including requirements, rules and regulations, student recordkeeping, review of forms and procedures, grading, and evaluation, etc. Upon complete review of this document, the student will apply his/her signature, signifying that he/she has read the document and understands its contents. The students will be apprised of potential dangers of radiation, communicable diseases and related hazards by reading and signing a Release Form. The students will make arrangements to for the required health exams and obtain a health clearance form as well as completing the required drug and background checks. For the first clinical rotation, the students will be assessed a fee for Malpractice/Liability Insurance which is for 12 consecutive months and is included with the registration fee. However, to be properly covered, the student **MUST** be registered for class with his/her name appearing on the class roster for each semester. The student is not permitted to enter the clinical site unless duly enrolled at the college.

PROGRAM COST

Please visit the [Program Costs webpage](#) for estimated fees.

Estimate does not include provisions for travel to and from school and clinical education site, for textbooks and fees related to general education requirement courses, or for the cost of the required health requirements.

Financial Aid is available; visit the [Financial Aid Office](#) in SSC 2220 or call (630) 942-2251 or (630) 942-2252.

CLINICAL EDUCATION

Each student ***will be rotated to a new clinical site at the beginning of each semester*** of the college calendar. This clinical rotation provides the student with clinical experience on a variety of imaging systems. In addition to the usual clinical rotations, each student will spend clinical time in specialty areas to include dedicated pediatrics rotation and PET/CT.

CLINICAL PLACEMENT

No guarantees will be made that students will be assigned their preference of clinical placement prior to each semester. The Clinical Coordinator and Program Chair will work together to place students in clinical sites each semester based on

site availability and prior clinical rotation(s) to ensure students are exposed to multiple clinical sites during the program.
