FY2016		FY2016	361,800
FY2015		FY2015	127,963
FY2014	2,500,000	FY2014	2,010,237
FY2013 and prior		FY2013	
		Encumbered/Pre-encumbered	38,089
		Currently Available	3,461,911
		Future Appropriations	
Update:	MPD IT is finalizing requirements for a variety of technology improvements related to this broad capital project. On the horizon: increasing video retention timelines for CCTV cameras, partnership with the OUC to improve radio coverage and tracking, optimizing video management solutions across multiple platforms.		
Impact to operating budget:	Will not negatively impact the operating budget.		
Project: PLR01C - MPD Locker Room Renovations			
Description:	<i>Managed by DGS. Renovation of all MPD Patrol District locker rooms</i>		
Amount:	3,000,000		
Allotments		Spending	
<i>2018 - 2022</i>			
FY2017		FY2017	419,128
FY2016		FY2016	1,705,999
FY2015	3,000,000	FY2015	467,415
FY2014		FY2014	
FY2013 and prior		FY2013	
		Encumbered/Pre-encumbered	160,872
		Currently Available	246,586
		Future Appropriations	
Update:	Currently finishing renovations @ MPD 3rd District, the remaining locker rooms will be completed once funding is reprogrammed from PDR01C: 2nd District, 4th District Substation, 1st District Substation.		
Impact to operating budget:	Will not negatively impact the operating budget.		

GOVERNMENT OF THE DISTRICT OF COLUMBIA
METROPOLITAN POLICE DEPARTMENT

April 11, 2017

The Honorable Charles Allen
Chair, Committee on the Judiciary and Public Safety
Council of the District of Columbia
1350 Pennsylvania Avenue, NW
Washington, DC 20004

Dear Councilmember Allen:

This letter is in response to your correspondence received March 13, 2017, regarding Metropolitan Police Department's Fiscal Year 2016 Performance hearing.

- 1. Year-to-date crime comparisons show a significant increase in theft and theft from auto offenses since January 2017. What strategies is MPD employing to combat these offenses? Has the Department considered reinstating the Motor Vehicle Theft Prevention Commission?***

So far in 2017, burglary, the most serious property crime, is down 17 percent. The other categories are up slightly: motor vehicle theft (6%), theft from auto (2%), and other theft (8%). However, it is important to recognize the impact that the differences in weather between 2016 and 2017 will have had on these crimes, most of which occur outdoors. Between January and March of 2016, the District experienced over 35 inches of snow compared to less than three inches of snow during the same time period this year. On the six days in 2016 where there were significant snow events (between 10 and 25 inches), there was a precipitous decline in thefts (-38%), motor vehicle thefts (-60%), and thefts from autos (-72%). There were smaller declines on the days with less snow.

The Department deploys a broad array of strategies to combat these crimes. However, since there are a wide category of crimes classified as thefts, no single one is likely to have a significant impact on the number of crimes. "Theft" may include shoplifting, package theft, bicycle theft, and other crimes. Our police districts, however, are deploying plans for addressing theft and theft from auto offenses in particular.

Strategies

In the First District, the Mountain Bike Unit launched a targeted effort against theft from auto around 4th and K Streets, NW. Since the Mountain Bike Unit started on January 9th around that intersection, only two thefts from auto had been reported in the first month. Prior to their deployment, there was, on average, two or three thefts from auto per day. Additionally, their deployment has resulted in the arrest and stop of three known repeat theft from auto suspects.

As manpower allows, theft from auto officers are assigned to patrol hot spots, identify suspects, and communicate with the people in the area. Watch commanders are monitoring and reporting on theft from auto each shift and redeploy units as theft from autos are reported throughout the day. Additionally, the First District Detective's office maintains a theft from auto picture-book, which is disseminated electronically to all officers to help be on the alert to current suspects or repeat offenders. Prevention information is distributed to the public

through a variety of measures, from list serves to pamphlets in hotspots. And all districts are working to promote the security camera rebate program. There have been some arrests related to package theft based on private camera footage, which could potentially catch theft from auto too.

The Fourth District regularly promotes prevention strategies at all community meetings by emphasizing the need to report suspicious persons, activities, and vehicles to MPD by calling 911. Loss prevention strategies also extend to businesses where officers meet with management to discuss such options as using the District's private security camera system rebate program; hiring off duty officers during peak times when thefts are occurring; promoting the use of barring notices for repeat offenders; and obtaining stay away orders for those arrested.

Motor Vehicle Theft Commission

The MVTC is convened under the authority of the Mayor, not the Department, so the Chief cannot reinstitute it. But the MVTC may not be as relevant now as it was when the authorizing legislation was enacted. Over the past decade since the legislation was passed, motor vehicle thefts decreased 59 percent. The Commission would require funding from the District General Fund, reducing budgets for other District priorities.

- 2. How many illegal guns were recovered in 2016? How does this compare with recoveries over the prior five years?***

The figures below are provided by the Department of Forensic Sciences, Firearms Examination Unit (FEU) for all recovered guns. The number of guns recovered in 2016 increased 10 percent over 2015, and was 4 percent higher than the average of the prior four years.

Year	Recovered
2016	1870
2015	1706
2014	1715
2013	1814
2012	1938

- 3. How does MPD trace the origins of illegal guns? Has MPD been able to trace the origin(s) of illegal guns recovered in 2016? If so, are there any trends related to their origin?***

The federal Bureau of Alcohol, Tobacco, Firearms, and Explosives conducts traces on firearms in the United States. While ATF is still compiling the trace origins for 2016, the top origin states of traceable guns are consistently Virginia, followed by Maryland. Specifically, in 2015, the top source states were Virginia (34%), Maryland (20%), North Carolina (7%), and South Carolina (7%). However, given that the average "time to crime" from the original point of sale for guns traced in the District is more than 11.5 years, it is difficult to take action based on the original points of sale.

- 4. Since announcing the Illegal Gun Initiative, how many tips has MPD received that successfully led to the recovery of illegal guns? How many guns were recovered as a result of these tips?***

Gun recoveries are not tracked by the source of the information that led to the recovery, and the Office of the Chief Financial Officer (OCFO) does not track how many guns are recovered as a result of a tip. The number of reward payouts for last year and the first four months of FY17 are below. The OCFO is running a complete report since 2010 which we will forward as soon as it is available.

Fiscal Year	Rewards Issued	Amount
2016	33	\$29,775
2017	8	5,750
Total		\$35,525

5. How many juveniles were reported missing in the District from FY12 to FY17, to date, by year, ward, age, gender, and race?

Missing person information is tracked by the calendar year. While missing person data is not tracked by Ward, we have included the data by District.

Categorization by race is challenging. It is usually based on officer observation, and as such is sometimes incomplete or may not accurately reflect the self-identification. Therefore we have provided percentages only below.

	2012	2013	2014	2015	2016	2017*
Total Juveniles	2610	2067	2222	2453	2242	574
Open Cases	0	0	1	0	4	10
Gender						
Female	1567	1200	1313	1486	1234	312
Male	1043	867	909	947	1008	262
Race						
American Indian	0%	0%	0%	<1%	<1%	0%
Asian / Pacific Islander	<1%	<1%	<1%	<1%	<1%	<1%
Black	94%	93%	92%	92%	89%	90%
Hispanic	4%	5%	7%	6%	7%	7%
White	<1%	1%	1%	2%	3%	2%
District						
1D	189	188	198	239	236	88
2D	43	44	37	41	24	8
3D	291	158	123	90	117	26
4D	409	313	248	311	294	71
5D	378	309	347	333	330	65
6D	658	505	585	680	589	142
7D	642	550	684	739	652	174

* As of April 3, 2017 at 4:15pm

a. How many of those juveniles were subsequently located?

All cases were closed except as noted above.

b. How does the Department communicate with the public that a missing person has been located?

The Department issues a press release for all critical cases. For all cases (critical and non-critical) we post updates on social media and our missing persons webpage.

c. Is the Department's critical missing person cases website up to date?

Yes.

6. On page 38 of your performance oversight responses, you discuss the importance of ensuring that the Department's middle managers are prepared to assume leadership roles as command staff. What is your strategy for accomplishing this goal?

The deployment of the sector concept in January 2017 is an opportunity to support greater development of our captains so that they are ready for promotion to command staff. This model brings additional management accountability to districts and allows for faster dispatch, lower response times, and improved service to the community.

Under this model, each patrol district is divided into three sectors with a sector being an informal grouping of Police Service Areas (PSAs). Each sector will be led by a captain, who will report directly to their respective district commanders. Sector captains will be responsible for their assigned areas 24 hours a day, seven days a week. Lieutenants will share responsibility for overseeing the PSAs and personnel in their sector on any given shift. Officers and sergeants will continue to be assigned to their current PSAs under the sector model.

Additionally, the Department's continues to run its Summer Crime Initiative, which emphasizes cultivating talent to provide our middle manager ranks with leadership opportunities and command-level experiences.

Finally, MPD always seeks to provide educational and advanced training opportunities for its emerging leaders. Some of these programs include the Johns Hopkins University Police Executive Leadership Program, the FBI National Academy, and the Naval Postgraduate School.

7. On page 5 of your FY17 Performance Plan, you note that MPD will be implementing new use of force principles, policies, and training by September 30, 2017. Please provide an overview of the departmental policy changes that the agency plans to implement.

MPD's implementation of new use of force principles and policies began in 2016 with the republication of GO-RAR-901.07 (Use of Force) on August 12, 2016. The revised policy includes a new use of force framework that replaced the Department's use of force continuum as the guiding model for decision making in use of force situations. The new use of force framework emphasizes the continual evaluation and assessment that we expect our officers to engage in, from the time they receive a call for service, until the scene is secure. The framework emphasizes that when encountering situations that may result in the use of force, officers must continually evaluate the situation by:

- Gathering information and assessing threats;

- Considering their authority, MPD policy, and tactics;
- Identifying options and contingencies;
- Developing a strategy; and
- Taking action and re-evaluating the situation.

In addition to implementing the new use of force framework, the new policy emphasizes the Department's commitment to valuing and preserving the sanctity of human life at all times, as well as mandating that use of force responses are proportionate to the threat faced by the officer or others. The policy also emphasizes the importance of de-escalation when encountering a situation where the possibility of violence or resistance to lawful arrest is present.

In December 2016, the General Order was updated to provide additional guidance to officers. Most significantly, the order now emphasizes that after using force, officers must render first-aid, as soon as the scene is safe. To reinforce this concept, when officers are engaged in scenario-based training at the Metropolitan Police Academy (MPA), they are reminded and receive feedback from instructors to ensure that after using force, they provide any required aid to make this standard practice for our members. As part of our August 2016 revision to our use of force policy, MPD re-instituted the requirement that officers must document all takedowns as reportable force incidents so that they can be tracked and monitored. Our December policy update defined and clarified for our officers that a takedown is an example of a compliance technique, to be used when a subject is actively resisting.

In addition to the changes already described, the Department plans to implement the following additional changes to our use of force policy this year. Our Policy and Standards Branch and MPA staff are working on developing a comprehensive policy and training on the use of ECDs in anticipation of the deployment of the devices later this year.

Other planned policy changes include the publication of updated general orders, GO-RAR-901.08 (Use of Force Investigations) and GO-OPS-306.01 (Canine Teams). Both orders are being updated to ensure conformance with the revised GO-RAR-901.07 (Use of Force) and to incorporate remaining recommendations resulting from report, "The Durability of Police Reform: The Metropolitan Police Department and Use of Force 2008-2015" issued in January 2016, by the Office of the District of Columbia Auditor.

MPA has developed scenario based training for both FY 2016 and 2017 designed to demonstrate the benefits of our new use of force framework and how using appropriate distance and cover when responding to scenes gives officers more time to assess the situation, identify options, take appropriate action, and then reassess the situation. Opportunities for de-escalation are emphasized during scenario debriefings for both recruits and career officers. Our Academy staff will continue to ensure that all use of force policy changes are incorporated into both recruit and professional development training going forward.

8. ***On page 7 of your FY17 Performance Plan, you state that the agency is expanding MPD's real-time analysis and critical response capabilities through the development of the Joint Strategic and Tactical Analytical Command Center. Please elaborate on what the Department plans to implement under this initiative.***

The Department is consolidating processes and integrating tools and software that will facilitate real-time and near real-time information and data dissemination. Specifically, in August 2016, MPD consolidated three analytical units into the Joint Strategic and Tactical Command Center (JSTACC) which falls under the Homeland Security Bureau. The JSTACC incorporates:

- The Command Information Center (also known as the CIC), which provides 24/7 citywide monitoring and real-time alerting as incidents start to arise;
- The Investigative Services Unit, which provides detectives with near real-time background and investigative information as a situation is evolving; and
- The Office of Research and Analytical Services which uses statistical analysis to elucidate trends and patterns to provide officials and officers with data-informed recommendations.

This consolidation has provided a more streamlined approach to information and data flow throughout the Department. Rather than disparate reports that have occasional overlapping information, the JSTACC consolidates information and provides products that build upon investigative and intelligence analysis.

Additionally, the mission of the JSTACC is to research, correlate, and disseminate timely, accurate, and actionable information from multiple sources to support robust analysis and deploy personnel and resources in real-time. Using state of the art technology, the JSTACC provides support 24/7, while using a proactive and data-driven approach to law enforcement. In the event of a priority incident or emergency, JSTACC personnel circulate pertinent information for situational awareness to responding officers, detectives, officials, and other need-to-know stakeholders.

9. *On page 17 of your performance oversight responses, you list a federal grant for the National Gun Crime Intelligence Center Initiative to establish a Crime Gun Intelligence Center in partnership with the Department of Forensic Sciences and the U.S. Bureau of Alcohol, Tobacco, Firearms and Explosives.*

a. On what type of work will the center focus?

The Center will focus on formalizing and growing a multiagency local-federal partnership to reduce gun crime in the District. Partners include the Bureau of the Alcohol, Tobacco, and Firearms, the U.S. Attorney's Office, the District's Department of Forensic Science, and other local partners. The Center is helping to facilitate investigations and prosecutions involving multiple jurisdictions as well as data collection on crime guns. The Lab @ DC will be involved with an evaluation of the Center.

b. What is the timeline for completing this project?

The Period of Performance for this grant is October 1, 2016 through September 30, 2018.

10. *In 2013, the Police Complaints Board ("PCB") released a report entitled, "Warrantless Entries into Private Homes by MPD Officers". In that report, PCB found that MPD should: (1) develop and distribute a general order on the subject of exigent circumstances; (2) develop and provide better training, both at the academy and in-service, on what constitutes exigent circumstances; (3) appropriately discipline officers when they conduct*

warrantless entries or searches in the absence of exigent circumstances; and (4) require officers to document, in writing, a search or entry into a private residence based on exigent circumstances. Since this report was released, OPC has received 57 complaints alleging a warrantless entry and/or search.

a. What is the Department's current policy on conducting warrantless entries into private homes?

GO-PCA-702.03 (Search Warrants) was updated on December 23, 2013, to include a section on warrantless searches and a discussion of the exigent circumstances that would justify a warrantless search of a residence. Absent authorization from a person with legal authority to provide consent, MPD policy restricts warrantless searches of non-public locations to one or more of the following emergency circumstances:

- To protect life or prevent injury;
- To protect evidence that is in immediate danger of destruction;
- When in active "hot pursuit" of a fleeing suspect; or
- When evidence exists to believe that a suspect is located inside and he or she is likely to flee.
- Members who conduct warrantless searches of residences are required to complete an incident report and document the justification for the search in the report narrative. Department policy also requires that members who are assigned body-worn cameras record warrantless entries into private homes.

b. Has the Department implemented any of the recommendations made by the Board?

As described above, GO-PCA-702.03 (Search Warrants) was updated in December, 2013, in response to the Board's recommendation to include a section on warrantless searches and a discussion of the exigent circumstances that would justify a warrantless search of a residence. MPD did not feel it was necessary to develop a separate general order on exigent circumstances and felt the recommendation was best satisfied by updating GO-PCA-702.03 and incorporating a new section into it. When policy updates are made, the Metropolitan Police Academy (MPA) ensures updated information is incorporated into recruit training. We are also planning to do roll call training on warrantless entries and will be releasing a mandatory online training module on warrants that will include a discussion of the warrantless searches of residences. Regarding discipline, MPD remains committed to investigating any allegations of illegal searches and issuing appropriate discipline for sustained cases. Finally, regarding documenting warrantless searches, as outlined above, MPD policy now requires officers who conduct warrantless searches to complete an incident report and document the justification for the search in the report narrative.

11. *On November 28, 2016, the PCB released a report entitled, "Language and Conduct". This report analyzed officers' use of improper language or conduct and recommended that MPD assess whether new training should be implemented, or whether tactical communication, verbal de-escalation, stress management, or other training would fit the Department's communication and interactive training needs?*

a. What are the current in-service and recruit training requirements on communicating with the public?

Within the last 18 months, MPD has implemented a new, comprehensive communication and has used President Barack Obama's Task Force on 21st Century Policing, released in May of 2015, to establish innovative and comprehensive training that reflect the "pillars" of the report. This curriculum has been implemented in both recruit training and 2016 in-service Professional Development Training for all sworn members of the force in both academic and scenario-based learning.

b. Has the Department implemented the recommendations made by the Board?

The following performance objectives that have been implemented for MPD's professional development and recruit training curriculum: concepts of de-escalation response, effective communication, empathy and compassion, problem identification, critical thinking and analysis, solution development and resolving conflict, ethical decision making, benefits from utilizing procedural justice, transparency and accountability, achieving public confidence, implicit bias. In addition, training of the effects of police work critical incident stress and officer self-care while working in stressful environments is also provided.

The Department has long subscribed to a successful community policing model, which at its foundation includes respect between police and the communities they serve. We continue to provide training and direction to our officers to improve and strengthen these relationships.

12. On November 18, 2016, the PCB released a report entitled, "Ensuring MPD Policies and Procedures Are Current". This report recommended that (1) the Department develop a plan to organize and review its written directives on a scheduled basis; (2) simplify the system for policies and procedures; and (3) ensure the implementation of an effective policy and procedure system and timely review through an accreditation process. Has the Department implemented the Board's recommendations?

We agree with PCB that a scheduled review of our policies is necessary, and in order to ensure that our older policies are reviewed for currency, the Chief of Police is directing that each of MPD's general orders be assigned to the Assistant Chief who oversees that specific aspect of operations. The Assistant Chiefs will be responsible for reviewing the general orders falling under their area of responsibility and either certifying that the policy is correct, in which case the policy will be reissued, or identifying the policy changes that need to be made. This effort will ensure that our older policies are brought up to date, and that we remove any appearance of a general order remaining untouched for a significant period of time.

However, going forward, we do not agree that a biennial, comprehensive review of every general order, absent an identified issue or concern, would be a good use of our limited resources. We feel that a goal of a five year review for all general orders, assuming no issues are identified in the interim, is more appropriate. It is important to note that MPD continues to address new and emerging policy issues on a continual basis, consistent with Department and District priorities. For example, our body-worn camera policy, originally published in 2014, has been reissued twice in the last two years to account for legal and operational updates. Additionally, the Department's policy governing general order development provides a mechanism for our members to request updates whenever necessary, regardless of where a policy falls on a "review schedule." So while we agree that all general orders should be reviewed on a scheduled basis, we must ensure we continue to have the flexibility to

prioritize our focus on the most critical issues affecting our members, as well as the residents and visitors of the District of Columbia.

Regarding PCB's recommendation that we simplify the system for policies and procedures by reducing the number and types of directives issued, we agree that the number of directives can be reduced. Our Policy and Standards Branch is working to reduce the different types of directives issued from six to four, eliminating training bulletins and standard operating procedures as their content is incorporated into other directives. We will also be updating our website to include more descriptive information regarding our policies to ensure that members of the public understand the purpose and types of directives that we issue to our members.

Finally, we do not agree with PCB's recommendation of enrolling in an accreditation process. MPD participated in the CALEA Accreditation process from 1992 to 2007. Not only did the accreditation process require substantial resources to simply document the administrative compliance with the hundreds of CALEA standards – a process which in and of itself offers no direct public safety benefit for District residents – but it also required significant time from our operational subject matter experts, detracting from actually safeguarding the city. There is no consequence to not being accredited, and we found no persuasive benefits to continue our accreditation efforts.

13. *There were a few questions that the agency was unable to compile prior to this hearing including: (1) a list of all employees with communication devices; (2) the total cost for equipment and service plans for mobile communications and devices; (3) an update on all capital projects; and (4) any budget enhancement requests. Please provide the Committee with responses to these questions.*

(1) The requested information is attached.

(2) The total cost for equipment and service plans is provided by the Office of the Chief Technology Officer.

FY17 (through 2/2017)	FY16 Actual
\$1,112,050	\$2,367,292

(3) The requested information is attached.

(4) The Mayor will be sharing the Fiscal Year 2018 budget with the Council on April 6th.

14. *How long does it take for the Department to hire an applicant from the beginning of the application process through completion of the Academy?*

The hiring process takes an average of four to six months. The training program at the Metropolitan Police Academy (MPA) is approximately 28 weeks. Barring any details or critical incidents, it takes approximately 11 months from application to graduation from the Academy.

15. The Department's contract with the D.C. Police Union expires in September of this year. How is the Department ensuring successful negotiations? Do you have any concerns with executing a new contract prior to the September deadline?

The parties will meet in the next few weeks to establish ground rules, and expect to begin substantive negotiations (including over compensation) shortly thereafter. Over the last several rounds of negotiations, compensation has typically been the biggest point of contention in resolving negotiations. However, the Chief of Police does not have any authority with regard to compensation proposals or negotiations. Pursuant to Mayor's Order, the Office of Labor Relations and Collective Bargaining (OLRCB) has sole authority over all compensation issues, which includes not only wages, but overtime and benefits as well. Although the Chief has no authority over such compensation negotiations, we have asked OLRCB to ensure that their labor market survey is completed such that compensation negotiations can proceed as expeditiously as possible.

16. How many bicycle thefts occurred in FY16 and FY17, to date? Please provide a breakdown by PSA.

YTD through 3/14/17

17. How many citations have been issued for making an illegal U-turn on Pennsylvania Avenue in FY16 and FY17, to date?

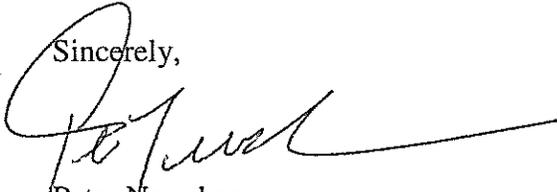

There is no specific tracking code for tickets for illegal U-turns through a bike lane. Pennsylvania Avenue from 3rd Street NW to 15th Street NW currently has barriers (“zebras”) preventing cars from making U-turns through the bike lanes.

18. How many parking citations have been issued in FY16 and FY17, to date for parking in a bike lane?

In 2015, the Department issued 110 citations for stopping, standing or parking vehicles in a bike lane. That number significantly increased in 2016 to 565 citations.

Please do not hesitate to contact me if you have any further questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Peter Newsam', with a long horizontal flourish extending to the right.

Peter Newsam
Acting Chief of Police

cc: Muriel Bowser, Mayor

Kevin Donahue, Deputy City Administrator and Deputy Mayor for Public Safety and Justice
