MEDIA/DIRECTORY INFORMATION CONSENT FORM

I understand that taping, photographing, or filming of activities may be conducted throughout the school year. These media recordings will be for non-commercial purposes, and may involve the use of my child's picture and/or voice, as regular classroom activity is recorded. This applies to such things as newspaper articles, published yearbooks, bulletin boards, etc.

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that Northern Tioga School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's records. The primary purpose of directory information is to allow the Northern Tioga School District to include information from your child's education records in certain school publications. Examples include:

- The annual yearbook;
- Honor roll or other recognition lists;

Dear Parent or Guardian:

On behalf of the Administration and bus drivers of the Northern Tioga School District, I am asking that you take a few minutes to go over and discuss with your child the district bus policies as outlined in this letter and the Student Code of Conduct.

Riding a school bus in the Northern Tioga School District is a privilege, not a right. Students must follow the rules and regulations at all times in order to provide the safest environment for themselves and others.

Please find out who your child's bus driver is and if you have any questions or problems talk to the driver. I'm certain they will work with you and your child to solve the problem. Of course, you are always free to contact me but most of the time the driver is familiar with the situation and can be very helpful in the resolution.

The basic bus rules are as follows:

1. Except for ordinary conversation classroom conduct is expected.
2. Be courteous, use no profane or abusive language.
3. Do not drink or eat on the bus.
4. Keep the bus clean.
5. Enter and leave the bus through the front door. Rear doors are to be opened for emergency only.
6. Keep the aisle clear.
7. Do not damage or deface any part of the bus. Students and/or parents must repay the cost of repairing.
8. Smoking and/or tobacco use is prohibited on the bus.
9. Stay in your assigned seat.
10. Do not extend any part of the body out of the bus window at any time.
11. The driver is in charge of the school bus except when a teacher is present

Although most drivers try to work with students and/or parents prior to sending a disciplinary report to your child's principal, it is not required as part of the disciplinary action. The Northern Tioga School District is noted for having a strict Transportation Policy, which allows us to provide for the safety of our students.

The following are the disciplinary steps for violation of bus rules:

First Offense: May result in a conference with driver/student/administration/parent and/or one day suspension.

Second Offense: May result in a five (5) to thirty (30) day bus suspension by the administration based on the severity of the infraction.

Third Offense: May result in suspension for the remainder of the school year by the administration.

Please discuss these with your child and the effects this could have on your family if your child is removed from the bus for an extended period of time.

Parent/Guardian Signature: _____ Date: _____

Parents - Please sign and return pages 1, 2 & 3 to your child's teacher within 5 days.

NON-DISCRIMINATION POLICY

The Board declares it to be the policy of this district to provide an equal opportunity for all students to achieve their maximum potential through the programs offered in the schools without discrimination on the basis of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy or handicap/disability.

The district strives to maintain a safe, positive learning environment for all students that is free from discrimination. Discrimination is inconsistent with the educational and programmatic goals of the district and is prohibited on school grounds, at school-sponsored activities and on any conveyance providing transportation to or from a school entity or school-sponsored activity.

The district shall provide to all students, without discrimination, course offerings, counseling, assistance, services, employment, athletics and extracurricular activities. The district shall make reasonable accommodations for identified physical and mental impairments that constitute handicaps and disabilities, consistent with the requirements of federal and state laws and regulations.

The Board encourages students and third parties who believe they or others have been subject to discrimination to promptly report such incidents to designated employees, even if some elements of the related incident took place or originated away from school grounds, school activities or school conveyances.

The Board directs that verbal and written complaints of discrimination shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of discrimination brought pursuant to this policy shall also be reviewed for conduct which may not be proven discriminatory under this policy but merits review and possible action under other Board policies.

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with this policy and the district's legal and investigative obligations.

Retaliation

The Board prohibits retaliation against any person for making a report of discrimination or participating in a related investigation or hearing, or for opposing practices the person reasonably believes to be discriminatory. A complaint of retaliation shall be handled in the same manner as a complaint of discrimination.

Definitions

Discriminatory Harassment

Harassment by students, employees or third parties on the basis of race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy, handicap/disability or for participation in reports or investigations of alleged discrimination is a form of discrimination and is subject to this policy. A person who is not necessarily an intended victim or target of such harassment but is adversely affected by the offensive conduct may file a report of discrimination on his/her own behalf.

For purposes of this policy, **harassment** shall consist of unwelcome conduct such as graphic, written, electronic, verbal or nonverbal acts including offensive jokes, slurs, epithets and name-calling, ridicule or mockery, insults or put-downs, offensive objects or pictures, physical assaults or threats, intimidation, or other conduct that may be harmful or humiliating or interfere with a person's school or school-related performance and which relates to an individual's or group's race, color, age, creed, religion, sex, sexual orientation, ancestry, national origin, marital status, pregnancy or handicap/disability when such conduct is:

1. Sufficiently severe, persistent or pervasive; and
2. A reasonable person in the complainant's position would find that it creates an intimidating, threatening or abusive educational environment such that it deprives or adversely interferes with or limits an individual or group of the ability to participate in or benefit from the services, activities or opportunities offered by a school.

Sexual Harassment

Sexual harassment is a form of discrimination on the basis of sex and is subject to this policy. For purposes of this policy, **sexual harassment** shall consist of unwelcome sexual advances; requests for sexual favors; and other inappropriate verbal, nonverbal, written, graphic or physical conduct of a sexual nature when:

1. Submission to such conduct is made explicitly or implicitly a term or condition of a student's status in any educational or other programs offered by a school; or
2. Submission to or rejection of such conduct is used as the basis for educational or other program decisions affecting a student; or
3. Such conduct deprives a student or group of individuals of educational aid, benefits, services or treatment; or
4. Such conduct is sufficiently severe, persistent or pervasive that a reasonable person in the complainant's position would find that it unreasonably interferes with the complainant's performance in school or school-related programs, or otherwise creates an intimidating, hostile, or offensive school or school-related environment such that it unreasonably interferes with the complainant's access to or participation in school or school-related programs.

Federal law declares sexual violence a form of sexual harassment. **Sexual violence** means physical or sexual acts perpetrated against a person's will or where a person is incapable of giving consent due to the victim's use of drugs or alcohol. An individual may also be unable to give consent due to an intellectual or other disability. Sexual violence includes but is not limited to rape, sexual assault, sexual battery and sexual coercion.

Delegation of Responsibility

In order to maintain a program of nondiscrimination practices that is in compliance with applicable laws and regulations, the Board designates the Superintendent as the district's Compliance Officer. All nondiscrimination notices or information shall include the position, office address, telephone number and email address of the Compliance Officer.

The Compliance Officer shall publish and disseminate this policy and complaint procedure at least annually to students, parents/guardians, employees and the public to notify them of where and how to initiate complaints under this policy.

The Compliance Officer is responsible to ensure adequate nondiscrimination procedures are in place, to recommend new procedures or modifications to procedures and to monitor the implementation of the district's nondiscrimination procedures in the following areas:

1. Curriculum and Materials - Review of curriculum guides, textbooks and supplemental materials for discriminatory bias.
2. Training - Provision of training for students and staff to prevent, identify and alleviate problems of discrimination.
3. Resources - Maintain and provide information to staff on resources available to alleged victims in addition to the school complaint procedure, such as making reports to the police, available assistance from domestic violence or rape crisis programs and community health resources including counseling resources.
4. Student Access - Review of programs, activities and practices to ensure that all students have equal access and are not segregated except when permissible by law or regulation.
5. District Support - Assurance that like aspects of the school program receive like support as to staffing and compensation, facilities, equipment, and related areas.
6. Student Evaluation - Review of tests, procedures, and guidance and counseling materials for stereotyping and discrimination.

7. Complaints - Monitor and provide technical assistance to building principals or designee in processing complaints.

The building principal or designee shall be responsible to promptly complete the following duties upon receipt of a report of discrimination or retaliation from a student, employee or third party:

1. If the building principal is the subject of the complaint, refer the complainant to the Compliance Officer to carry out these responsibilities.
2. Inform the complainant about this policy including the right to an investigation of both oral and written complaints of discrimination.
3. Seek to obtain consent from parents/guardians to initiate an investigation where the complainant or alleged victim is under age eighteen (18). Inform parents/guardians of the complainant that the complainant may be accompanied by a parent/guardian during all steps of the complaint procedure. When a parent/guardian requests confidentiality and will not consent to the alleged victim's participation in an investigation, explain that the school shall take all reasonable steps to investigate and respond to the complaint consistent with that request for confidentiality as long as doing so does not preclude the school from responding effectively to the discrimination and preventing discrimination of other students.
4. Provide relevant information on resources available in addition to the school complaint procedure, such as making reports to the police, available assistance from domestic violence or rape crisis programs and community health resources including counseling resources.
5. Immediately notify the Compliance Officer of the complaint. The Compliance Officer shall assess whether the investigation should be conducted by the building principal, another district employee, the Compliance Officer or an attorney and shall promptly assign the investigation to that individual. When a parent/guardian has requested confidentiality and will not consent to the alleged victim's participation in an investigation, the Compliance Officer shall provide the parent/guardian with a letter containing information related to the district's legal obligations to conduct an investigation and address violations of this policy, and any other information appropriate to the specific complaint.
6. After consideration of the allegations and in consultation with the Compliance Officer and other appropriate individuals, promptly implement interim measures as appropriate to protect the complainant and others as necessary from violation of this policy during the course of the investigation.

Guidelines

Complaint Procedure – Student/Third Party

Step 1 – Reporting

A student or third party who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the incident to the building principal. Any person with knowledge of conduct that may violate this policy is encouraged to immediately report the matter to the building principal.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the building principal, as well as properly making any mandatory police or child protective services reports required by law.

If the building principal is the subject of a complaint, the student, third party or employee shall report the incident directly to the Compliance Officer.

The complainant or reporting employee may be encouraged to use the district's report form, available from the building principal or Compliance Officer, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint

shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.

Step 2 – Investigation

The Compliance Officer shall ensure that the individual assigned to investigate the complaint has an appropriate understanding of the relevant laws pertaining to discrimination issues and this policy and how to conduct investigations.

The investigator shall work with the Compliance Officer to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.

The investigator shall conduct an adequate, reliable and impartial investigation. The complainant and the accused may suggest additional witnesses and provide other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place away from school property, school-sponsored activities or school conveyances, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person making the report, parties, parents/guardians and witnesses shall be informed of the prohibition against retaliation for anyone's participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.

If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Compliance Officer, who shall promptly inform law enforcement authorities about the allegations.

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district's investigative responsibilities during the fact-finding portion of a criminal or child protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.

Step 3 – Investigative Report

The investigator shall prepare and submit a written report to the Compliance Officer within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Compliance Officer to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.

The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into discriminatory harassment or sexual harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused shall not be notified of the individual remedies offered or provided to the complainant.

Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Compliance Officer shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If an investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with the Code of Student Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

Appeal Procedure

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the Compliance Officer within fifteen (15) days. If the Compliance Officer investigated the complaint, such appeal shall be made to the Superintendent.
2. The individual receiving the appeal shall review the investigation and the investigative report and may also conduct or designate another person to conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.
3. The person handling the appeal shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

For more information about your rights or grievance procedures, contact Section 504 Coordinators, Title IX Coordinator and Compliance Officer, Kristopher Kaufman at 110 Ellison Road, Elkland, PA 16920, (814) 258-5642.

NETWORK ACCEPTABLE USE & INTERNET SAFETY

The Northern Tioga School District recognizes that our students live in a world of increasingly sophisticated technology and greatly enhanced communication. We further recognize that the availability of an ever-present and virtually unlimited information resource has profound implications for instruction. We therefore believe that it is imperative to provide computer network and Internet access to our students and staff.

District technology resources are defined to include telecommunications systems, WAN/LAN computer networks, Internet access, electronic mail, computer hardware, personal digital assistants, handheld computers, wireless technologies, text paging systems, computer software, and other technologies that align in these categories.

The Network Acceptable Use and Internet Safety Policy detailed here is designed to articulate the appropriate use of these technologies and the district computer network (including the Internet) in the instructional setting of our schools. This document seeks to set ground rules that will forestall problems that could surface in such an unfettered environment. NTSD user compliance with these rules will help ensure a safe and appropriate learning environment. This policy is applicable to internal network use as well as external electronic communications. This policy will serve as a guide for acceptable use of district technology resources as well as an Internet Safety Policy (ISP). As a public school entity receiving federal funds, this policy is also required for purposes of complying with the Child Internet Protections Act (CIPA) and regulations adopted by the Federal Communications Commission (FCC). This policy may be revised or amended subject to School Board approval.

The Northern Tioga School District establishes that use of technology resources by its staff and students is a privilege, and not a right. Inappropriate, unauthorized and illegal use may result in cancellation of those privileges and/or appropriate disciplinary action. To this end, the district will employ reasonable technology solutions, including Internet filtering software, to restrict access to objectionable material. Internet access by students will be monitored by district staff and/or software at all times. However, the ultimate responsibility for complying to this AUP lies with all NTSD technology users.

Network And Internet Access

All students and employees are eligible to have "network user" accounts and to access the network resources in our school buildings. Students will not be provided with e-mail accounts by the school district. Except in cases involving specific class projects, students are not permitted to access chat rooms, online messaging systems, or other forms of direct electronic communication in school.

Parents who would like their children to be denied access to the Internet in school should notify each child's building principal in writing at the beginning of each school year for which they would like this access to be denied.

Internet privileges of any NTSD user may be denied, suspended, or revoked as a consequence of violation of the provisions of this Network Acceptable Use and Internet Safety Policy. Furthermore, Northern Tioga School District

administrators and staff will cooperate fully with law enforcement officials when there is suspicion that unlawful activity has taken place.

Code Of Conduct: District Network And Internet Resources

1. Network users must be aware that there are materials on the Internet that maybe defamatory, abusive, obscene, profane, sexually oriented, threatening, racially or sexually offensive, or illegal. These materials include graphics, sounds, digital film clips, text, and other forms of media. Users of the Northern Tioga School District network agree not to use school district resources to download, copy, upload, transmit, forward, or display any such materials. District technology resources will not be used for illegal activities, transmitting offensive materials, distributing hate mail or discriminatory remarks, or obtaining, transmitting or communicating indecent, profane, obscene or pornographic material that is harmful to minors.
2. Technology resources will be used to support the functions of the Northern Tioga School District, its curriculum, the educational community, projects between schools, and communication and research for school district administrators, teachers, and students. Network access is also provided to support the curriculum and operations of our district. Any other use, including use of the network for personal, political, or commercial purposes is prohibited.
3. Network users are expected to respect all applicable state, federal, and local laws. Particularly, users agree to abide by copyright laws. Material retrieved from the Internet may not be plagiarized for any purpose. Material that is to be republished in any format may only be used with the permission of the copyright holder. Commercial software may not be downloaded, copied, installed, transmitted, uploaded, or forwarded. Violation of copyright or other laws is prohibited and will be referred to the proper authorities.
4. Network accounts are to be used only by the authorized owner of the account only for purposes acceptable within this policy. A user will not use another person's account, pretend to be someone else, or attempt to conceal his/her identity on the network. Users will not give others access or permission to use their accounts. Users will not re-post personal communications without the author's consent. As minors, student safety is always a priority. Students will not give out personal information such as their real name, address, phone number, social security number; send other users pictures of themselves; or agree to meet with people encountered online. Exceptions to avoiding such sharing of personal information may occur only within the context of projects directed by and under the supervision of a teacher. The unauthorized disclosure, use or dissemination of personal information regarding any district staff member is prohibited.
5. The district network shall not be used to disrupt the work of others. Any interference with the normal operations of the network will not be permitted. This includes vandalism or removal of computer hardware, installation or use of unapproved software, the unauthorized changing of network software settings, attempts to circumvent security or Internet filtering software, and the installation, copying, uploading, transmission, propagation, or creation of computer viruses of any kind. Any attempt to gain unauthorized access to information or data on the network is prohibited. Users shall likewise not attempt to access areas or resources on the network that the network systems administrator has not directly given them access to utilize.
6. E-mail user accounts will be provided for school district staff only. The use of non-district "web-based" e-mail accounts (such as hotmail) by anyone through district Internet access is prohibited. Staff electronic mail and other communications are not a private matter. School administrators have the authority to inspect e-mail that is transmitted through the district's network. The district reserves the right to monitor all electronic communications. E-mail use that contradicts provisions of the Network Acceptable Use and Internet Safety Policy will be handled appropriately. Specifically, illegal activities will be reported to law enforcement personnel, and unacceptable communications can result in network privileges being denied, suspended, or revoked as well as other discipline. A diligent effort must be made by district staff to delete mail routinely from their district mail directories to avoid unnecessary use of file server disk space.
7. Users are expected to follow generally accepted school network etiquette guidelines. The use of technology resources for entertainment purposes is strictly prohibited. To minimize unnecessary bandwidth use district computers, networks, or Internet should not be used for playing or distributing computer games, downloading music or other similar nonschool related files. All streaming audio and video access must be for specific educational objectives and should be approved through the Technology Department.
8. A diligent effort must be made by all NTSD users to periodically delete obsolete files from their own network user folders accessed through their user name. In addition, users are not permitted to store executable files (*.exe) within e-mails or in user network folders. Children's Online Privacy Protection Act (COPPA)

In order for the Northern Tioga School District to provide your child with the most effective web-based tools and apps for learning, we must obtain your permission to allow us to share limited personally identifiable information with websites or web services operated by third parties as per the Children's Online Privacy Protection Act

(COPPA). At its core, COPPA requires website operators that collect personal information to obtain verifiable parental consent for children under the age of 13 before children may use their services. There is a provision in COPPA that allows schools to collect parental consent on behalf of the website operators thus eliminating the need for the website operators to collect consent directly from parents. Sites we use include Google's G Suite for Education, Microsoft Office 365 for Education, StudyIsland, BrainPOP Jr, Moby Max, Khan Academy, and similar education programs. For a full list, please visit our website at www.ntiogasd.org/coppa.

TRANSPORTATION RULES AND DISCIPLINE

Riding a school bus is a privilege, a privilege that will be denied when students do not follow bus regulations. Students may be subjected to video monitoring while on school buses. Northern Tioga School District, as part of the district's ongoing program to improve student discipline and ensure the health, welfare, and safety of all those riding school buses, shall utilize cameras having video/audio on buses transporting students to and from school.

Policy #810.2 refers to the use of video/audio cameras on school buses. Northern Tioga School District, as part of the district's ongoing program to improve student discipline and ensure the health, welfare, and safety of all those riding school buses, shall utilize cameras having video/audio on buses transporting students to and from curricular and extracurricular activities.

School Bus Rules

1. Except for ordinary conversation, classroom conduct is expected.
2. Be courteous, use no profane or abusive language.
3. Do not drink or eat on the bus.

4. Keep the bus clean.
5. Enter and leave the bus through the front door. Rear doors are to be opened for emergency only.
6. Keep the aisle clear.
7. Do not damage or deface any part for the bus. Students and/or parents/guardian must repay the cost of repairing any damage or the student will be prosecuted.
8. Smoking and/or tobacco use is prohibited on the bus.
9. Stay in your assigned seat.
10. Do not extend any part of the body out of the bus window at any time.
11. The driver is in charge of the school bus except when a teacher is present.

Disciplinary Action

Misconduct-Infractions of school bus rules:

First Offense May result in a conference with driver/student/administration/parent/guardian and/or one day suspension.

Second Offense May result in a one (1) to thirty (30) day bus suspension by the administration based on the severity of the infraction.

Third Offense May result in suspension for the remainder of the school year by the administration.

School principals may use any of the more severe disciplinary actions without regard to the student's number of previous violations.

THE DRIVER OF THE BUS IS REQUIRED TO ASSIGN SEATS AND TO REPORT MISCONDUCT TO THE SCHOOL PRINCIPAL.

Smoking and/or tobacco use - Students will lose riding privileges as indicated below when driver observes the violation:

1. First violation: 10 days suspension from the bus and a state-mandated fine and court costs.
2. Second violation: 30 days suspension from the bus and a state-mandated fine and court costs.
3. Third violation: Suspension from the bus for the remainder of the school year and a state-mandated fine and court costs. Last day violation may be assessed the following year.

Tobacco includes a lighted or unlighted cigarette, cigar, pipe or other smoking product or material and smokeless tobacco in any form and electronic cigarettes. Electronic cigarettes are defined as battery-operated products designed to deliver nicotine, flavor, and other chemicals by turning the substance into a vapor that is inhaled by the user.

Other Considerations

There may be times when you wish your child to go to someone else's home after school. If your child rides a bus, and you wish him/her to get off the bus somewhere other than the normal place, it will be necessary to send written permission telling where you wish the child to go and the bus driver will accept such riders if room is available on the bus.

There may be other cases in which you wish your child to ride a different bus, or a child who normally walks may wish to go home with a friend who rides a bus. Again, written permission will be required and the bus driver will accept such riders if room is available on the bus.

All bus transportation changes **MUST** be in writing, signed by the parent/guardian and submitted to the main school office. **BUS CHANGES SHOULD BE MADE NO LATER THAN 10:00 AM.** Students will not be permitted to be discharged or picked up at any location which is not a current approved bus stop.

SCHOOL BUS ACCIDENT PROCEDURES

When a school bus accident occurs in the Northern Tioga School District and there is an injury, Emergency Medical Services (EMS) will be called to the scene. The Emergency Medical Services Officer will be in charge when he or she arrives at the scene.

Students will be transported to the UPMC Wellsboro Emergency Department. Students may be transported by ambulance or on a school bus/van depending on the seriousness of their injuries. An attempt will be made by emergency medical personnel on scene to accompany the students on the bus/van.

An emergency department physician or advanced practical provider will do a medical screening exam. If there are no injuries or abnormalities, the student will be released and there will be no charge. If further care is needed, the student will be billed for an emergency department visit, for tests, and all treatments as received. All students screened will generate a medical record.

Emergency department personnel will attempt to contact parents of the students who need treatment but will render care immediately for emergencies.

The students who have been screened and do not need care will be bused to their schools if the accident happens on the way to school. If the accident happens on the way home from school, the students will be picked up by their parents at the hospital.

The Northern Tioga School District Transportation Coordinator, the school principals, and secretaries will coordinate the communications among the accident scene, the schools, the hospital, and the parents. School personnel will meet the students at the hospital.

In the Commonwealth of Pennsylvania insurance regulations are established under the No-Fault provisions. Therefore, in the event of a school bus accident you will be required to contact your individual automobile insurance agent or carrier to submit a claim. This will include accidents in which the school bus and another vehicle are involved or just the bus itself is involved. There are no options to permit filing of a claim directly with the Northern Tioga School District. Your insurance agent or carrier is required to file against the correct individuals on the basis of the claim which you submit. If you have any questions concerning the No-Fault provisions of the law as it pertains to school bus accidents, please contact your automobile insurance agent or carrier.

DELAYED START, EARLY DISMISSAL, AND EMERGENCY CLOSING OF SCHOOLS

A decision to close schools for emergency reasons is made only after careful deliberation of the emergency situation. The decision to close schools reflects our concerns for the safety of children and the obligation to maintain the continuity of instructional programs. Announcements will be made over local radio and television stations when dangerous driving conditions or when other emergencies make it necessary to DELAY the starting time, DISMISS school earlier, or to CLOSE schools for the day.

PLEASE DO NOT CALL THE PRINCIPAL OR THE SUPERINTENDENT AS THIS ONLY TIES UP TELEPHONE LINES AND DELAYS REQUIRED ACTION.

CLOSING OF SCHOOLS

When school is to be closed there will be radio and television announcements to this effect by the District Superintendent. This will normally be done early in the morning, and will be announced over the following stations:

WELM AM 1400	-	Elmira	WNBT AM 1490	-	Wellsboro
WINK FM 106	-	Corning	WLSV AM 790	-	Wellsville
WNBT FM 104.5	-	Wellsboro	WKSJ FM 95	-	WilliamSPORT
WLIH 107.1	-	Whitneyville	WILQ FM 105	-	WilliamSPORT
WDKC 101	-	Mansfield	WHGL FM 100.3	-	Troy
WLIH FM 107	-	Whitneyville	WETM TV	-	Elmira
WENY TV	-	Elmira	Parent Square		
WYOU TV	-	Wilkes Barre	News 10 Now		

Parents can also call (814) 258-5642 for a voice message of the closing or delay or check the district's website at www.ntiogasd.org.

DELAYED SCHOOL STARTING TIMES

The starting time for schools will be delayed 2 hours (120 minutes) on mornings when weather conditions make roads temporarily hazardous. Delayed school starting time broadcasts will also be announced early in the morning over the previously listed stations. Breakfast will be served on these days. Afternoon dismissal will be at the regular time for all students.

EARLY DISMISSAL

When hazardous weather conditions develop during the day, schools may be dismissed earlier than usual. When it is necessary to close all schools early, the superintendent will authorize dismissal of schools. Broadcasts of early dismissal, stating the approximate dismissal time for all schools, will also be announced on the previously listed stations.

When weather conditions deteriorate during the day, parents should anticipate an early dismissal. Parents are urged to make plans in advance to care for children who will be arriving home from school at an earlier hour.

Arrangements will be made to care for children who are usually picked up by their parents until the parents arrive at the early dismissal time.

**SPECIAL CIRCUMSTANCES
ROAD CONDITIONS**

It is entirely possible that school may be in session when certain roads in the district will be deemed unsafe for the school bus to travel. It is district policy to have schools open when a large majority of the children are able to attend. When road conditions to your home are too hazardous for the bus, and you personally see that your children are driven to school, the responsibility for their return home is also up to you. If you desire, later in the day, you may call your bus driver to ask if he/she will return your child. If road conditions have improved, he/she should return the student. The decision in this instance will be made by the bus driver.

FIRE DRILLS

Fire drills are required. These are held at intervals throughout the school year and are checked accordingly as to the speed and order in which the building is emptied. A notice is placed on the bulletin board of each room indicating which door is to be used as a fire exit. You are to walk quickly and silently. Make certain you follow all directions. Once outside of the building, remain with your class at least 50 feet from the building until the signal to return is given.

INSURANCE

The Northern Tioga School District does not carry insurance on students. However, parents may purchase low cost insurance at the beginning of each term. Each student will receive information within the first several days of the term detailing cost and the kind of coverage available.

MEDICATION

The guidelines to follow for the administration of legal drugs to students during school hours is as follows:

1. It is the parent's/guardian's responsibility to contact the school nurse to complete the permission form and physician authorization forms.
2. All medication shall be brought to school and delivered directly to the school nurse or administration by the parent/guardian.
3. Complete information for administration will be on the properly labeled original container dispensed by a pharmacist or attending physician.
4. All approved prescription medicine must be taken in either the nurse's office or the administrative office.

MEDICAL APPOINTMENTS

Parents are encouraged to make doctor and dentist appointments when school is not in session if at all possible. Students who must miss school for medical purposes are to present the doctor's excuse to the attendance officer upon returning to school. Prior notification to the school office is necessary.

STUDENT RECORDS

The educational interests of students require the collection, retention, and use of data and information about individuals and groups of students while ensuring the individual's right to privacy. The school district will maintain educational records for students for legitimate educational purposes.

The Board recognizes its responsibility for compilation, retention, disposition and security of student records. The Board also recognizes the legal requirement to maintain the confidentiality of student records.

The Board shall adopt a comprehensive plan for all aspects of student records that conforms to the mandates of the Family Educational Rights and Privacy Act (FERPA) and its regulations; the Guidelines for the Collection, Maintenance, and Dissemination of Student Records; and the Standards for Special Education. Only educational records mandated by federal and state statutes and regulations or permitted by the Board may be compiled by district staff.

Parents/Guardians and eligible students eighteen (18) years and older shall be notified annually and upon initial enrollment of their rights concerning student records. The notice shall be modified to accommodate the needs of the disabled or those whose dominant language is other than English.

The Superintendent or designee shall be responsible for developing and implementing a comprehensive plan for records of regular students and students with disabilities that meets the requirements of all state and federal statutes and regulations and is approved by the Board.

The designated administrator shall establish safeguards to protect the student and his/her family from an invasion of privacy when collecting, retaining and disseminating student information and providing access to authorized persons.

In accordance with law, each district teacher shall prepare and maintain a record of the work and progress of each student, including the final grade and a recommendation for promotion or retention.

The district's plan for compilation, retention, disclosure and security of student records shall provide for the following:

1. Informing parents/guardians and eligible students of their rights and the procedures to implement those rights.
2. Permitting appropriate access by authorized persons and officials, describing procedures for access, and listing copying fees.
3. Enumerating and defining the types, locations and persons responsible for student records maintained by the district.

4. Establishing guidelines for disclosure of information and data in student records.
5. Maintaining a record of access and release of information for each student's records.
6. Assuring appropriate retention and security of student records.
7. Transferring education records and appropriate disciplinary records to other school districts.

Procedures for disclosure of student records shall apply equally to military recruiters, colleges and universities, and prospective employers.

The annual notice of rights shall inform parents/guardians and eligible students of the following:

1. The right to inspect and review the student's education record within forty-five (45) days of the district's receipt of the request for access.
2. The right to request amendment of the student's education records that the parent/guardian or eligible student believes are inaccurate, misleading or otherwise violate the privacy rights of the student.
3. The right to consent to disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA and state laws authorize disclosure without consent.
4. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest if the district discloses certain materials without prior consent.
5. The right to refuse to permit the designation of any or all categories of directory information.
6. The right to request that information not be provided to military recruiting officers.

NOTICE OF RIGHTS UNDER FERPA FOR ELEMENTARY & SECONDARY SCHOOLS

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days after the day the School receives a request for access.

Parents or eligible students should submit to the school principal a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the school to amend a record should write the school principal, clearly identify the part of the record they want changed, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer or contractor outside of the school who performs an institutional service of function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's

enrollment or transfer. [NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

FERPA permits the disclosure of PII from students' education records, without consent of the parent or eligible student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the parent or eligible student, §99.32 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student –

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i)(B)(1) - (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of §99.34. - To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State educational agency in the parent or eligible student's State (SEA). Disclosures under this provision may be made, subject to the requirements of §99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf. (§§99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records were released, subject to §99.38. (§99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction. (§99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§99.31(a)(8))

MCKINNEY-VENTO/EDUCATING CHILDREN AND YOUTH EXPERIENCING HOMELESSNESS PROGRAM

The Educating Children and Youth Experiencing Homelessness program is authorized under Title VII-B of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq) (McKinney-Vento Act). The McKinney-Vento Act was originally authorized in 1987 and most recently re-authorized in December 2015 by the Every Student Succeeds Act (ESSA). The McKinney-Vento Act is designed to address the challenges that homeless children and youth have faced in enrolling, attending, and succeeding in school.

Under the McKinney-Vento Act, educational agencies must ensure that each homeless child and youth has equal access to the same free, appropriate public education, including a public preschool education, as other children and youths. Homeless children and youths must have access to the educational and related services that they need to enable them to meet the same challenging State academic standards to which all students are held. In addition, homeless students may not be separated from the mainstream school environment. Local Educational Agencies are required to review and undertake steps to revise laws, regulations, practices, or policies that may act as barriers to the identification, enrollment, attendance, or success in the school of homeless children and youths.

The law indicates that the LEA liaison shall ensure that all homeless children, youth, and families are identified through coordinated activities with other entities.

**DEFINITION OF HOMELESS (MCKINNEY-VENTO ACT SEC. 725 (2); 42 U.S.C. 11435 (2)):

RESIDENCY AND EDUCATIONAL RIGHTS:

Students who are in temporary, inadequate and homeless living situations have the following rights:

Immediate enrollment in the school they last attended *or* the school in whose attendance area they are currently staying even if they do not have all of the documents normally required at the time of enrollment;

Access to free meals and textbooks, Title I, other educational programs, and other comparable services including transportation;

Attendance in the same classes and activities that students in other living situations also participate in without fear of being separated or treated differently due to their housing situations.

When a student is identified as being McKinney-Vento eligible, staff will:

- Assist with enrollment, monitor school attendance, and arrange transportation
- Provide required school supplies and other school related materials as needed
- Advocate for and support students and families
- Set clear expectations of student behavior, attendance, and academic performance
- Assist students/families with access to community resources

NONDISCRIMINATION – QUALIFIED STUDENTS WITH DISABILITIES

The Board declares it to be the policy of this district to ensure that all district programs and practices are free from discrimination against all qualified students with disabilities. The Board recognizes its responsibility to provide academic and nonacademic services and programs equally to students with and without disabilities.

The district shall provide to each qualified student with a disability enrolled in the district, without cost to the student or parent/guardian, a free and appropriate public education (FAPE). This includes provision of education and related aids, services, or accommodations which are needed to afford each qualified student with a disability equal opportunity to participate in and obtain the benefits from educational programs and extracurricular activities without discrimination, to the same extent as each student without a disability, consistent with federal and state laws and regulations.

The Board encourages students and parents/guardians who believe they have been subjected to discrimination or harassment to promptly report such incidents to designated employees.

The Board directs that complaints of discrimination or harassment shall be investigated promptly, and corrective action be taken for substantiated allegations.

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be maintained, consistent with the district's legal and investigative obligations.

The district shall not intimidate, threaten, coerce, discriminate or retaliate against any individual for the purpose of interfering with any right or privilege secured by this policy.

Section 504 Service Agreement (Service Agreement) - an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has

equal access to the benefits of the school's educational programs, nonacademic services, and extracurricular activities.

Disability harassment - intimidation or abusive behavior toward a student based on disability that creates a hostile environment by interfering with or denying a student's participation in or receipt of benefits, services, or opportunities in the school's educational programs, nonacademic services, or extracurricular activities.

Delegation of Responsibility

In order to maintain a program of nondiscrimination practices that is in compliance with applicable law and regulations, the Board designates the Student Services Coordinator as the district's Section 504 Coordinator.

In addition, each school within the district shall have a Section 504 building administrator.

The district shall publish and disseminate this policy and complaint procedure on or before the first day of each school year by posting it on the district's website, if available, and in the student handbook. The district shall notify parents/guardians of students residing in the district of the district's responsibilities under applicable law and regulations, and that the district does not discriminate against qualified individuals with disabilities.

Guidelines

Identification and Evaluation

The district shall conduct an annual child find campaign to locate and identify every district student with a disability thought to be eligible for Section 504 services and protections. The district may combine this search with the district's IDEA child find efforts, in order to not duplicate efforts.

If a parent/guardian or the district has reason to believe that a student should be identified as a qualified student with a disability, should no longer be identified as a qualified student with a disability, or requires a change in or modification of the student's current Service Agreement, the parent/guardian or the district shall provide the other party with written notice.

The district shall establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need related services because of a disability.

The district shall specifically identify the procedures and types of tests used to evaluate a student, and provide the parent/guardian the opportunity to give or withhold consent to the proposed evaluation(s) in writing.

The district shall establish procedures for evaluation and placement that assure tests and other evaluation materials:

1. Have been validated and are administered by trained personnel.
2. Are tailored to assess educational need and are not based solely on IQ scores.
3. Reflect aptitude or achievement or anything else the tests purport to measure and do not reflect the student's impaired sensory, manual or speaking skills (except where those skills are what is being measured).

Service Agreement

If a student is determined to be a qualified student with a disability, the district shall develop a written Service Agreement for the delivery of all appropriate aids, services, or accommodations necessary to provide the student with FAPE.

The district shall not implement a Service Agreement until the written agreement is executed by a representative of the district and a parent/guardian.

The district shall not modify or terminate a student's current Service Agreement without the parent's/guardian's written consent.

Educational Programs/Nonacademic Services/Extracurricular Activities

The district shall educate a qualified student with a disability with students who are not disabled to the maximum extent appropriate to the needs of the student with a disability. A qualified student with a disability shall be removed from the regular educational environment only when the district determines that educating the student in the regular educational environment with the use of related aids, services, or accommodations cannot be achieved satisfactorily. Placement in a setting other than the regular educational environment shall take into account the proximity of the alternative setting to the student's home.

The district shall not discriminate against any qualified student with a disability in its provision of nonacademic services and extracurricular activities, including but not limited to, counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs, and referrals to agencies which provide assistance to individuals with disabilities.

Parental Involvement

Parents/Guardians have the right to inspect and review all relevant school records of the student, meet with the appropriate school officials to discuss any and all issues relevant to the evaluation and accommodations of their child, and give or withhold their written consent to the evaluation and/or the provision of services.

Confidentiality of Student Records

All personally identifiable information regarding a qualified student with a disability shall be treated as confidential and disclosed only as permitted by the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations, state regulations, and Board policy.

Discipline

When necessary, the district shall discipline qualified students with disabilities in accordance with state and federal laws and regulations and Board policies.

Referral to Law Enforcement and Reporting Requirements

For reporting purposes, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents committed on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity by a qualified student with a disability, including a student for whom an evaluation is pending, to the local police department that has jurisdiction over the school's property, in accordance with state and federal laws and regulations, the procedures set forth in the memorandum of understanding with local law enforcement, and Board policies. The Superintendent or designee shall respond in a manner that is consistent with the student's Service Agreement and Behavior Support Plan, if applicable.

In making a determination of whether to notify the local police department of a discretionary incident committed by a qualified student with a disability, including a student for whom an evaluation is pending, the Superintendent or designee shall use the same criteria used for students who do not have a disability.

For a qualified student with a disability who does not have a Behavior Support Plan as part of the student's Service Agreement, subsequent to notification to law enforcement, the district, in consultation with the student's parent/guardian, shall consider whether a Behavior Support Plan should be developed as part of the Service Agreement to address the student's behavior.

In accordance with state law, the Superintendent shall annually, by July 31, report to the Office for Safe Schools on the required form all new incidents committed by qualified students with disabilities, including students for whom an evaluation is pending, which occurred on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity.

PROCEDURAL SAFEGUARDS

The district shall establish and implement a system of procedural safeguards that includes notice of rights to the parent/guardian of a student suspected of being a qualified student with a disability, an opportunity for the parent/guardian to review relevant records, an impartial hearing with an opportunity for participation by the student's parent/guardian, and a review procedure.

A student or parent/guardian filing a claim of discrimination need not exhaust these procedures prior to initiating court action under Section 504.

Parental Request for Assistance

Parents/Guardians may file a written request for assistance with the Pennsylvania Department of Education (PDE) if one (1) or both of the following apply:

1. The district is not providing the related aids, services and accommodations specified in the student's Service Agreement.
2. The district has failed to comply with the procedures and state regulations.

PDE shall investigate and respond to requests for assistance and, unless exceptional circumstances exist, shall, within sixty (60) calendar days of receipt of the request, send to the parents/guardians and district a written response to the request. The response to the parents'/guardians' request shall be in the parents'/guardians' native language or mode of communication.

Informal Conference

At any time, parents/guardians may file a written request with the district for an informal conference with respect to the identification or evaluation of a student, or the student's need for related aids, services or accommodations. Within ten (10) school days of receipt of the request, the district shall convene an informal conference. At the conference, every effort shall be made to reach an amicable agreement.

Formal Due Process Hearing

If the matters raised by the district or parents/guardians are not resolved at the informal conference, the district or parents/guardians may submit a written request for an impartial due process hearing. The hearing shall be held before an impartial hearing officer and shall be conducted in accordance with state regulations.

Judicial Appeals

The decision of the impartial hearing officer may be appealed to a court of competent jurisdiction.

COMPLAINT PROCEDURE

This complaint procedure is in addition to and does not prevent parents/guardians from using any option in the procedural safeguards system.

Step 1 – Reporting

A student or parent/guardian who believes s/he has been subject to conduct by any student, employee or third party that constitutes a violation of this policy is encouraged to immediately report the incident to the Section 504 building administrator. Any person with knowledge of conduct that may violate this policy, is encouraged to immediately report the matter to the Section 504 building administrator.

A school employee who suspects or is notified that a student has been subject to conduct that constitutes a violation of this policy shall immediately report the incident to the Section 504 building administrator, as well as properly making any mandatory police or child protective services reports required by law.

If the Section 504 building administrator is the subject of a complaint, the student, parent/guardian or employee shall report the incident directly to the district's Section 504 Coordinator.

The complainant or reporting employee may be encouraged to use the district's report form, available from the Section 504 building administrator or Section 504 Coordinator, or to put the complaint in writing; however, oral complaints shall be accepted, documented and the procedures of this policy implemented. The person accepting the verbal or written complaint may provide factual information on the complaint and the investigative process, the impact of choosing to seek confidentiality and the right to file criminal charges. In all other respects, the person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the complainant or those accused of a violation of this policy.

Step 2 – Investigation

The Section 504 Coordinator shall ensure that the individual assigned to investigate the complaint has an appropriate understanding of the relevant laws pertaining to discrimination issues and this policy and how to conduct investigations.

The investigator shall work with the Section 504 Coordinator to assess the anticipated scope of the investigation, who needs to be interviewed and what records may be relevant to the investigation.

The investigator shall conduct an adequate, reliable and impartial investigation. The complainant and the accused may suggest additional witnesses and provide other evidence during the course of the investigation. When the initial complaint involves allegations relating to conduct which took place away from school property, school-sponsored activities or school conveyances, the investigation may include inquiries related to these allegations to determine whether they resulted in continuing effects such as harassment in school settings.

The investigation may consist of individual interviews with the complainant, the accused, and others with knowledge relative to the allegations. The investigator may also evaluate any other information and materials relevant to the investigation. The person making the report, parties, parents/guardians and witnesses shall be informed of the prohibition against retaliation for anyone's participation in the process and that conduct believed to be retaliatory should be reported. All individuals providing statements or other information or participating in the investigation shall be instructed to keep the matter confidential and to report any concerns about confidentiality to the investigator.

If the investigation reveals that the conduct being investigated may involve a violation of criminal law, the investigator shall promptly notify the Section 504 Coordinator, who shall promptly inform law enforcement authorities about the allegations.

The obligation to conduct this investigation shall not be negated by the fact that a criminal or child protective services investigation of the allegations is pending or has been concluded. The investigator should coordinate with any other ongoing investigations of the allegations, including agreeing to requests for a short delay in fulfilling the district's investigative responsibilities during the fact-finding portion of a criminal or child protective services investigation. Such delays shall not extend beyond the time necessary to prevent interference with or disruption of the criminal or child protective services investigation.

Step 3 – Investigative Report

The investigator shall prepare and submit a written report to the Section 504 Coordinator within twenty (20) days of the initial report of alleged discrimination, unless the nature of the allegations, anticipated extent of the investigation or the availability of witnesses requires the investigator and the Section 504 Coordinator to establish a different due date. The parties shall be notified of the anticipated date the investigative report will be completed and of any changes to the anticipated due date during the course of the investigation.

The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, the information and evaluation that formed the basis for this determination, whether the conduct violated this policy and of any other violations of law or Board policy which may warrant further district action, and a recommended disposition of the complaint. An investigation into disability harassment shall consider the record as a whole and the totality of circumstances in determining whether a violation of this policy has occurred, recognizing that persistent and pervasive conduct, when taken together, may be a violation even when the separate incidents are not severe.

The complainant and the accused shall be informed of the outcome of the investigation, for example, whether the investigator believes the allegations to be founded or unfounded, within a reasonable time of the submission of the

written report to the extent authorized by the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused shall not be notified of the individual remedies offered or provided to the complainant.

Step 4 – District Action

If the investigation results in a finding that some or all of the allegations of the complaint are established and constitute a violation of this policy, the district shall take prompt, corrective action designed to ensure that such conduct ceases and that no retaliation occurs. The district shall promptly take appropriate steps to prevent the recurrence of the prohibited conduct and to address the discriminatory effect the prohibited conduct had on the complainant and the school or school program environment. District staff shall document the corrective action taken and, where not prohibited by law, inform the complainant. The Section 504 Coordinator shall follow up by assessing the effectiveness of the corrective action at reasonable intervals.

If the investigation results in a finding that a different policy was violated separately from or in addition to violations of this policy, or that there are circumstances warranting further action, such matters shall be addressed at the conclusion of this investigation or through disciplinary or other appropriate referrals where further evaluation or investigation is necessary.

Disciplinary actions shall be consistent with the Code of Student Conduct, Board policies and administrative regulations, district procedures, applicable collective bargaining agreements, and state and federal laws.

Appeal Procedure

1. If the complainant or the accused is not satisfied with a finding made pursuant to the policy or with recommended corrective action, s/he may submit a written appeal to the district's Section 504 Coordinator within fifteen (15) days.
2. The Section 504 Coordinator shall review the investigation and the investigative report and may also conduct a reasonable supplemental investigation to assess the sufficiency and propriety of the prior investigation.
3. The Section 504 Coordinator shall prepare a written response to the appeal within twenty (20) days. Copies of the response shall be provided to the complainant, the accused and the investigator who conducted the initial investigation.

STUDENT/SUBSTITUTE TEACHERS

Student teachers and substitute teachers are to be recognized as having the same authority of the regular member of the faculty. They are vested with the same powers to make assignments, award marks, etc. as a regular member of the staff.

It is readily understood that substitutes face out-of-ordinary situations in taking up assigned class work on relatively short notice and teaching students with whom they have not had an opportunity to become acquainted. Your total cooperation is expected.

ASSEMBLIES

Students are expected to maintain a high level of excellence in behavior. All rules and regulations that apply to a normal school day are in effect for all assembly periods. Students are to leave from their homeroom with their teacher when notified over the intercom. They are then to proceed to the assembly in an orderly procession to the auditorium or gymnasium (or other site of the assembly) and sit in the designated area for their grade level. Mannerly behavior is to be exhibited at all times.

VISITORS

Parents or community members must arrange in advance to speak with a teacher. No one is to go to classrooms unannounced, either during or after the school day. Adult visitors must first report to the Principal's office where they will be issued a visitor's pass. Students should show courtesy to visitors in the building by directing them to the

appropriate office or extending any help that is needed. Anyone wishing to visit classes must get permission from the principal. Students are not permitted to bring a visitor into school.

EXTRA CURRICULAR ACTIVITIES

Student Responsibility

Extra-curricular activities shall include those functions which are conducted after school hours under the direction of authorized school personnel and where appropriate school administrators have jurisdiction over the students. Such activities shall include, but not necessarily be limited to, school sponsored events, clubs, field trips, athletic functions, and other similar activities.

Any student participating in such activities is responsible for following the rules of the school regarding behavior. If a student breaks any of these rules, he/she shall be subject to disciplinary measures by appropriate school personnel.

Extra curricular activities are a privilege and may be denied.

This exception shall be governed by Board policy relating to Controlled Substances/Paraphernalia.*

Delegation of Responsibility

Students, parents/guardians, coaches, sponsors, volunteers, and district employees shall be alert to incidents of hazing and shall report such conduct to the building principal or designee.

Title IX Sexual Harassment and Other Discrimination

Every report of alleged hazing that can be interpreted at the outset to fall within the provisions of policies addressing potential violations of laws against discrimination and discriminatory harassment shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of a hazing investigation, potential issues of discrimination or discriminatory harassment are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged hazing.

Guidelines

In addition to posting this policy on the district's publicly accessible website, the district shall inform students, parents/guardians, sponsors, volunteers and district employees of the district's policy prohibiting hazing, including district rules, penalties for violations of the policy, and the program established by the district for enforcement of the policy by means of distribution of written policy, publication in handbooks, and verbal instructions by the coach or sponsor at the start of the season or program.

This policy, along with other applicable district policies, procedures and Codes of Conduct, shall be provided to all school athletic coaches and all sponsors and volunteers affiliated with a student activity or organization annually, prior to coaching an athletic activity or serving as a responsible adult supervising, advising, assisting or otherwise participating in a student activity or organization together with a notice that they are expected to read and abide by the policies, procedures and Codes of Conduct.

Complaint Procedure

A student who believes that they have been subject to hazing is encouraged to promptly report the incident to the building principal or designee.

Students are encouraged to use the district's report form, available from the building principal, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the

complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

Interim Measures/Police

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.

Referral To Law Enforcement and Safe Schools Reporting Requirements –

For purposes of reporting hazing incidents to law enforcement in accordance with Safe Schools Act reporting, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents, as defined in the Safe Schools Act, committed by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.

The Superintendent or designee shall notify the parent/guardian of any student directly involved in a defined incident as a victim or suspect immediately, as soon as practicable. The Superintendent or designee shall inform the parent/guardian whether or not the local police department that has jurisdiction over the school property has been or may be notified of the incident. The Superintendent or designee shall document attempts made to reach the parent/guardian.

In accordance with state law, the Superintendent shall annually, by July 31, report all new incidents to the Office for Safe Schools on the required form.

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with applicable law, regulations, this policy and the district's legal and investigative obligations.

Retaliation

Reprisal or retaliation relating to reports of hazing or participation in an investigation of allegations of hazing is prohibited and shall be subject to disciplinary action.

Consequences for Violations

Safe Harbor –

An individual needing medical attention or seeking medical attention for another shall not be subject to criminal prosecution if the individual complies with the requirements under law, subject to the limitations set forth in law.

Students –

If the investigation results in a substantiated finding of hazing, the investigator shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Student Conduct. The student may also be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity or organization. The fact of whether a student qualified for and received safe harbor under a criminal investigation shall be considered in assigning discipline.

In addition to other authorized discipline, building principals shall have the authority, after providing the student or students an informal hearing, to impose a fine of up to fifty dollars (\$50) on each student determined to have engaged in hazing in violation of this policy.

When recommended disciplinary action results in a formal hearing before the Board, in addition to other authorized disciplinary consequences, the Board may also impose a fine of up to one hundred fifty dollars (\$150) on each student determined to have engaged in hazing in violation of this policy.

When fines have not been paid, the Superintendent shall have the authority to direct that student diplomas and/or transcripts be withheld until payment in full is made or a payment plan is agreed upon. In cases of economic hardship, the Superintendent shall consider whether diplomas and/or transcripts should be released despite an unpaid fine.

Nonstudent Violators/Organizational Hazing -

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, the coach, sponsor, or volunteer shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment.

If an organization is found to have engaged in organizational hazing, it shall be subject to the imposition of fines and other appropriate penalties. Penalties may include rescission of permission for that organization to operate on school property or to otherwise operate under the sanction or recognition of the district.

Criminal Prosecution –

Any person or organization that causes or participates in hazing may also be subject to criminal prosecution.

Extended Suspension Exclusion from school for an additional amount of school days not to exceed a total (suspension and extended suspension together) of ten (10) days.

Suspension may be given by the principal or person in charge of the public school. No student shall be suspended until he/she has been informed of the reasons for suspension and given an opportunity to respond. Prior notice of the extended suspension need not be given when it is clear that the health, safety or welfare of the person and/or the school community is threatened. The parents/guardian and the Superintendent shall be notified immediately in writing when the student is suspended. Students have the responsibility to make up exams and work missed while being disciplined by suspension and shall be permitted to complete these

assignments within guidelines established by the Board. Students will not be permitted to attend or participate in any extracurricular/after school activities during the suspension period.

Expulsion Exclusion from school by the Board for a period exceeding ten (10) school days and may be permanent expulsion from the school rolls. All expulsions require a prior formal hearing.

During the period prior to the hearing and decision of the Board in an expulsion case, the student shall be placed in his/her normal class unless it is determined, after an informal hearing, that a student's presence in his/her normal class would constitute a threat to the health, safety, morals or welfare of others, and it is not possible to hold a formal hearing within the period of suspension. In that case, the student may be excluded from school for more than ten (10) school days, if the formal hearing is not unreasonably delayed. Any student so excluded shall be provided with alternative education which may include home study.

NOTE: *There are recurring situations in which prior notice and hearing cannot be insisted upon. Students whose presence pose a continuing danger to persons or property or an ongoing threat of disrupting the academic process may be immediately removed from the school in such cases: the necessary notice and rudimentary hearing will follow as soon as practicable. Determination as to whether a student's presence poses such a continuing danger shall be made by the school administration.

However, in all cases when an infraction of the policies and regulations under which the school is governed occurs that warrants consideration of denying the student the opportunity to participate in the educational program, then these procedures will go into effect.

Suspension Hearing - Three or More Days Out-Of-School

When a student is suspended from school for more than three (3) days, an informal hearing will be conducted with the student and parent/guardian. The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended. The informal hearing is meant to encourage the student's parents or guardian to meet with the principal to discuss ways by which future offenses can be avoided.

The formal hearing shall observe the due process requirements of:

1. Notification of the charges in writing by certified mail to the student or the students parent or guardian
2. Notice of the time and place of the hearing
3. The hearing shall be held in private unless the student or parent requests a public hearing
4. The right to representation by counsel
5. Disclosure of the names of witnesses and the testimony they have made
6. The right to testify and present witnesses on the students behalf
7. The hearing shall be held with all reasonable speed
8. Recording of the proceedings
9. A copy of the transcript available at the student's expense

Where the student disagrees with the results of the hearing, recourse is available in the appropriate court of the Commonwealth. If it is alleged that a constitutional issue is involved, the student may file a claim for relief in the appropriate Federal district court.

A student with a disability may be suspended for ten (10) consecutive and fifteen (15) cumulative days of school per school year, regardless of whether the student's behavior is a manifestation of his/her disability.

A hearing officer may order removal of a student with a disability to an alternative setting for forty-five (45) days where the district demonstrates by substantial evidence that maintaining the student's current placement is substantially likely to result in injury to the student or others.

3. Such conduct deprives a student of educational aid, benefits, services or treatment.
4. Such conduct is sufficiently severe, persistent or pervasive that it has the purpose or effect of substantially interfering with the student's school performance or creating an intimidating, hostile or offensive educational environment.

Regardless of age, when district staff refer a habitually truant student to the local children and youth agency or file a citation with the appropriate magisterial district judge, district staff shall provide verification that the school held a SAIC.

The Board shall expel for a period of not less than one (1) year any student who violates this weapons policy. The Superintendent may recommend modifications of such expulsion requirement on a case-by-case basis.

STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS

Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. The Board also recognizes that the exercise of that right must be limited by the district's responsibility to maintain a safe and orderly school environment and to protect the rights of all members of the school community.

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the district shall be regulated as part of the school district's educational program.

Definitions

Distribution means students issuing nonschool materials to others on school property or during school-sponsored events; placing upon desks, tables, on or in lockers; or engaging in any other manner of delivery of nonschool materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Expression means verbal, written, technological or symbolic representation or communication.

Nonschool materials means any printed, technological or written materials meant for posting or general distribution that are not prepared as part of the curricular or approved extracurricular programs of the district. This includes, but is not limited to, fliers, invitations, announcements, pamphlets, posters, Internet bulletin boards, personal websites and the like.

Posting means publicly displaying nonschool materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student websites; through other district-owned technology and the like. When email, text messaging or other technological delivery is used as a means of posting nonschool materials via use of school equipment or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours posting, including technological posting, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

Authority

Students have the right to express themselves unless such expression is likely to or does materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.

Student expression that occurs on school property or at school-sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities, school work, discipline, safety and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.

The Board requires that distribution and posting of nonschool materials shall occur only at the places and during the times set forth in written procedures. Such procedures shall be written to permit the safe and orderly operation of schools, while recognizing the rights of students to engage in protected expression.

Unprotected Student Expression

The Board reserves the right to designate and prohibit manifestations of student expression that are not protected by the right of free expression because they violate the rights of others or where such expression is likely to or does materially or substantially interfere with school activities, school work, discipline, safety and order on school property or at school functions. While the following list is not intended to be exhaustive, such expression shall not be protected if it:

1. Violates federal, state or local laws, Board policy or district rules or procedures.
2. Is libelous, defamatory, obscene, lewd, vulgar or profane.
3. Advocates the use or advertises the availability of any substance or material that may reasonably be believed to constitute a direct and serious danger to the health or welfare of students, such as tobacco/nicotine, alcohol or illegal drugs.
4. Incites violence, advocates use of force or threatens serious harm to the school or community.
5. Is likely to or does materially or substantially interfere with the educational process, such as school activities, school work, discipline, safety and order on school property or at school functions.
6. Interferes with, or advocates interference with, the rights of any individual or the safe and orderly operation of the schools and their programs.
7. Violates written school district procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

Discipline for Engaging in Unprotected Expression

The Board reserves the right to prohibit the posting or distribution of nonschool materials containing unprotected expression and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right to discipline students for engaging in unprotected expression. Where such expression occurs off campus and away from school functions, a nexus between the unprotected expression and a material and substantial disruption of the school program must be established.

Distribution of Nonschool Materials

The Board requires that students who wish to distribute or post nonschool materials on school property shall submit them at least one (1) school day in advance of planned distribution or posting to the building principal or designee, who shall forward a copy to the Superintendent.

If the nonschool materials contain unprotected expression as stated in this policy, the building principal or designee shall notify the students that they may not post or distribute the materials because the materials constitute a violation of Board policy.

If notice is not given during the period between submission and the time for the planned distribution or posting, students may proceed with the planned distribution or posting, provided they comply with written procedures on time, place and manner of posting or distribution of nonschool materials.

Students who post or distribute nonschool materials in compliance with this provision may still be ordered to desist such distribution if the materials are later found to be unprotected expression under this policy.

Students who distribute printed materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

Posting of Nonschool Materials

If a school building has an area where individuals are allowed to post nonschool materials, students may post such items as well, if the materials do not constitute unprotected expression and the items are submitted for prior review in the same manner as if the students were going to distribute them.

Such materials shall be officially dated, and the district may remove the materials within ten (10) days of the posting or other reasonable time as stated in the procedures relating to posting.

Review of Student Expression

School officials shall not censor or restrict nonschool materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district procedures.

Delegation of Responsibility

The Superintendent shall assist the building principal in determining the designation of the places and times nonschool materials may be distributed in each school building. Such designations may take into account

maintenance of the flow of student traffic throughout the school and shall limit distribution of nonschool materials to noninstructional times.

The building principal may determine disciplinary action for students who distribute or post nonschool materials in violation of this policy and district procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.

This Board policy and any procedures written to implement this policy shall be referenced in student handbooks so that students can access them for further information.

SPECIAL EDUCATION

The Purpose of Identification Activities

Northern Tioga School District is responsible for educating all children within its jurisdiction as each student is entitled to a free and appropriate public education.

Each student has particular learning needs that can be met in either a regular education class, a special education class or a special school.

Special Education Services and Programs

Northern Tioga School District, the Intermediate Unit and neighboring school districts are partners that provide the following services and programs for students needing special education support;

- * Academics - Services for students whose primary need is assistance and/or enrichment with classroom learning.
- * Autistic Support – Services designed primarily for students with developmental disabilities significantly affecting verbal and non-verbal communication and social interactions which adversely affect their educational performance.
- * Multiple Disabilities Support – Services for students whose concomitant impairments result in such severe educational needs that they cannot be accommodated in educational program designed solely for one of the impairments.
- * Life Skills - Services for students whose primary need is learning independent living skills.
- * Emotional - Services for students whose primary need is emotional support and structure.
- * Speech and Language - Services for students with speech and language impairments.
- * Sensory - Services for students with vision or hearing loss affecting educational performance.
- * Physical - Services for students who have physical disabilities. Both physical and occupational therapy are provided to enable students to benefit from education programs.

A student's need is determined by an Individual Educational Planning Team based upon the recommendation of a Multidisciplinary Evaluation. Specific criteria is used to determine eligibility for a special service or program.

The Screening Process

The Northern Tioga School District has a three level system in place to locate and identify children who may be eligible for additional supports.

Level I Screening involves periodic reviews of each student's files and school records. Level II Screening is provided by the school nurse through hearing and vision screenings, and a speech screening if necessary by the speech therapy staff. Level III Screening involves the review of data gathered through our Multi-Tier System of Supports (MTSS) program, which is designed to assist students who are found to be educationally or behaviorally at-risk. The team communicates ways to meet each student's needs through recommended interventions. The student's progress is closely monitored to determine if appropriate gains are being made or if special education services may be needed.

The school district provides these services throughout the school year. However, if as a parent, you feel a need to have your child screened for learning problems, possible exceptionalities, or would like to request a psycho-educational evaluation for your child, contact the principal of your child's school.

Annual Notice To Parents Chapter 15 Protected Handicapped Student

In compliance with state and federal law, the Northern Tioga School District will provide to each protected handicapped student without discrimination or cost to the student or family, those related aids, services or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum extent appropriate to the student's abilities. In order to qualify as a protected handicapped student the child must be of school age with a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the school program.

Annual Public Notice of Special Education Services and Programs, Services for Gifted Students, and Services for Protected Handicapped Students (Revised May 20, 2009)

Notice to Parents

According to state and federal special education regulations, annual public notice to parents of children who reside within a school district is required regarding child find responsibilities. School districts (SDs), intermediate units (IUs) and charter schools (CSs) are required to conduct child find activities for children who may be eligible for services via Section 504 of the Rehabilitation Act of 1973. For additional information related to Section 504/Chapter 15 services, the parent may refer to Section 504, Chapter 15, and the Basic Education Circular entitled Implementation of Chapter 15. Also, school districts are required to conduct child find activities for children who may be eligible for gifted services via 22 Pa Code Chapter 16. For additional information regarding gifted services, the parent may refer to 22 PA Code Chapter 16. If a student is both gifted and eligible for Special Education, the procedures in IDEA and Chapter 14 shall take precedence. This notice shall inform parents throughout the school district, intermediate unit, and charter school of the child identification activities and of the procedures followed to ensure confidentiality of information pertaining to students with disabilities or eligible young children. In addition to this public notice, each school district, intermediate unit, and charter school shall publish written information in the handbook and on the web site. Children ages three through twenty one can be eligible for special education programs and services. If parents believe that the child may be eligible for special education, the parent should contact the appropriate staff member identified at the end of this public notice. Children age three through the age of admission to first grade are also eligible if they have developmental delays and, as a result, need Special Education and related services. Developmental delay is defined as a child who is less than the age of beginners and at least 3 years of age and is considered to have a developmental delay when one of the following exists: (i) The child's score, on a developmental assessment device, on an assessment instrument which yields a score in months, indicates that the child is delayed by 25% of the child's chronological age in one or more developmental areas. (ii) The child is delayed in one or more of the developmental areas, as documented by test performance of 1.5 standard deviations below the mean on standardized tests. Developmental areas include cognitive, communicative, physical, social/emotional and self-help. For additional information you may contact the Supervisor of Early Intervention Services, BLaST IU #17.

Evaluation Process

Each school district, intermediate unit, and charter school has a procedure in place by which parents can request an evaluation. For information about procedures applicable to your child, contact the school, which your child attends. Telephone numbers and addresses can be found at the end of this notice. Parents of preschool age children, age

three through five, may request an evaluation in writing by addressing a letter to the Supervisor of Early Intervention Services, BLaST IU #17.

Consent

School entities cannot proceed with an evaluation, or with the initial provision of special education and related services, without the written consent of the parents. For additional information related to consent, please refer the Procedural Safeguards Notice which can be found at the PaTTAN website, www.Pattan.net. Once written parental consent is obtained, the district will proceed with the evaluation process. If the parent disagrees with the evaluation, the parent can request an independent education evaluation at public expense.

Program Development

Once the evaluation process is completed, a team of qualified professional and parents determine whether the child is eligible. If the child is eligible, the individualized education program team meets, develops the program, and determines the educational placement. Once the IEP team develops the program and determines the educational placement, school district staff, intermediate unit staff, or charter school staff will issue a notice of recommended educational placement/prior written notice. Your written consent is required before initial services can be provided. The parent has the right to revoke consent after initial placement.

Confidentiality of Information:

The SDs, IUs and CSs maintain records concerning all children enrolled in the school, including students with disabilities. All records are maintained in the strictest confidentiality. Your consent, or consent of an eligible child who has reached the age of majority under State law, must be obtained before personally identifiable information is released, except as permitted under the Family Education Rights and Privacy Act (FERPA). The age of majority in Pennsylvania is 21. Each participating agency must protect the confidentiality of personally identifiable information at collection, storage, disclosure, and destruction stages. One official at each participating agency must assume responsibility for ensuring the confidentiality of any personally identifiable information. Each participating agency must maintain, for public inspection, a current listing of the names and positions of those employees within the agency who have access to personally identifiable information.

For additional information related to student records, the parent can refer to the Family Education Rights and Privacy Act (FERPA).

This notice is only a summary of the Special Education services, evaluation and screening activities, and rights and protections pertaining to children with disabilities, children thought to be disabled, and their parents. For more information or to request evaluation or screening of a public or private school child contact the school entity listed below. For preschool age children, information and requests for screenings or evaluations may be obtained by contacting the Intermediate Unit.

Guidelines

Aiding and Abetting Sexual Abuse

School employees, acting in an official capacity for this district, are prohibited from assisting another school employee, contractor or agent in obtaining a new job if the school employee knows, or has probable cause to believe, that such school employee, contractor or agent engaged in sexual misconduct regarding a minor or student.

This prohibition applies only to assistance that extends beyond performance of normal processing of personnel matters including routine transmission of files or other information. This prohibition shall not apply if:

1. The relevant information has been properly reported to law enforcement officials and any other authority required by federal, state or local law and the matter has been officially closed or the prosecutor or law enforcement officials notified school officials that there is insufficient information to establish probable cause.
2. The school employee, contractor or agent has been acquitted or otherwise exonerated of the alleged misconduct.
3. The case or investigation remains open and no charges have been filed against, or indictment of, the school employee, contractor or agent within four (4) years of the date on which the information was reported to the law enforcement agency.

Training

The school district, and independent contractors of the school district, shall provide their employees who have direct contact with children with mandatory training on child abuse recognition and reporting. The training shall include, but not be limited to, the following topics:

1. Recognition of the signs of abuse and sexual misconduct and reporting requirements for suspected abuse and sexual misconduct.
2. Provisions of the Educator Discipline Act, including mandatory reporting requirements.
3. District policy related to reporting of suspected abuse and sexual misconduct.
4. Maintenance of professional and appropriate relationships with students.

Employees are required to complete a minimum of three (3) hours of training every five (5) years.

Duty to Report

School employees, independent contractors and volunteers shall make a report of suspected child abuse if they have reasonable cause to suspect that a child is the victim of child abuse under any of the following circumstances:

1. The school employee, independent contractor or volunteer comes into contact with the child in the course of employment, occupation and the practice of a profession or through a regularly scheduled program, activity or service.
2. The school employee, independent contractor or volunteer is directly responsible for the care, supervision, guidance or training of the child.

A child is not required to come before the school employee, independent contractor or volunteer in order for that individual to make a report of suspected child abuse.

A report of suspected child abuse does not require the identification of the person responsible for the child abuse.

Any person who, in good faith, makes a report of suspected child abuse, regardless of whether the report is required, cooperates with an investigation, testifies in a proceeding, or engages in other action authorized by law shall have immunity from civil and criminal liability related to those actions.

Any person required to report child abuse who willfully fails to do so may be subject to disciplinary action and criminal prosecution.

Any person who intentionally or knowingly makes a false report of child abuse or intentionally or knowingly induces a child to make a false claim of child abuse may be subject to disciplinary action and criminal prosecution.

Any person who engages in intimidation, retaliation, or obstruction in the making of a child abuse report or the conducting of an investigation into suspected child abuse may be subject to disciplinary action and criminal prosecution.

The district shall not discriminate or retaliate against any person for making, in good faith, a report of suspected child abuse.

Reporting Procedures

School employees, independent contractors or volunteers who suspect child abuse shall immediately make a written report of suspected child abuse using electronic technologies (www.compass.state.pa.us/cwis) or an oral report via the statewide toll-free telephone number (1-800-932-0313). A person making an initial oral report of suspected child abuse must also submit a written electronic report within forty-eight (48) hours after the oral report. Upon receipt of an electronic report, the electronic reporting system will automatically respond with a confirmation, providing the district with a written record of the report.

A school employee, independent contractor or volunteer who makes a report of suspected child abuse shall immediately, after making the initial report, notify the building principal or administrator and if the initial report was made electronically, also provide the building principal or administrator with a copy of the report confirmation. The building principal or administrator shall then immediately notify the Superintendent or designee that a child abuse report has been made and if the initial report was made electronically, also provide a copy of the report confirmation.

When a report of suspected child abuse is made by a school employee, independent contractor or volunteer as required by law, the school district is not required to make more than one (1) report. An individual otherwise required to make a report who is aware that an initial report has already been made by a school employee, independent contractor or volunteer is not required to make an additional report. The person making an initial oral report is responsible for making the follow-up written electronic report within forty-eight (48) hours, and shall

provide the building principal or administrator with a copy of the report confirmation promptly after the written electronic report has been filed. The building principal or administrator shall in turn provide a copy of the report confirmation to the Superintendent or designee.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Safe Schools Act, the Superintendent or designee shall inform local law enforcement, in accordance with applicable law, regulations and Board policy.

Investigation

The building principal or administrator shall facilitate the cooperation with the Department of Human Services of the Commonwealth or the county agency investigating a report of suspected child abuse, including permitting authorized personnel to interview the child while in attendance at school.

Upon notification that an investigation involves suspected child abuse by a school employee, the building principal or administrator shall immediately implement a plan of supervision or alternative arrangement that has been approved by the Superintendent for the school employee under investigation. The plan of supervision or alternative arrangement shall be submitted to the county agency for approval.

MAINTAINING PROFESSIONAL ADULT/STUDENT BOUNDARIES

All adults shall be expected to maintain professional, moral and ethical relationships with district students that are conducive to an effective, safe learning environment. This policy addresses a range of behaviors that include not only obviously unlawful or improper interactions with students, but also precursor grooming and other boundary-blurring behaviors that can lead to more egregious misconduct.

The Board directs that all adults shall be informed of conduct that is prohibited and the disciplinary actions that may be applied for violation of Board policies, administrative regulations, rules and procedures.

This policy is not intended to interfere with appropriate pre-existing personal relationships between adults and students and their families that exist independently of the district or to interfere with participation in civic, religious or other outside organizations that include district students.

Definition

For purposes of this policy, **legitimate educational reasons** include matters or communications related to teaching, counseling, athletics, extracurricular activities, treatment of a student's physical injury or other medical needs, school administration or other purposes within the scope of the adult's assigned job duties.

Delegation of Responsibility

The building principal or designee shall be available to answer questions about behaviors or activities that may violate professional boundaries as defined in this policy.

Independent contractors doing business with the district shall ensure that their employees who have interaction with students or are present on school grounds are informed of the provisions of this policy.

Guidelines

Adults shall establish and maintain appropriate personal boundaries with students and not engage in any behavior that is prohibited by this policy or that creates the appearance of prohibited behavior.

Prohibited Conduct

Romantic or Sexual Relationships -

Adults shall be prohibited from dating, courting, or entering into or attempting to form a romantic or sexual relationship with any student enrolled in the district, regardless of the student's age. Students of any age are not legally capable of consenting to romantic or sexual interactions with adults.

Prohibited romantic or sexual interaction involving students includes, but is not limited to:

1. Sexual physical contact.

10. Displaying or transmitting sexual objects, pictures, or depictions.

Social Interactions -

In order to maintain professional boundaries, adults shall ensure that their interactions with students are appropriate.

Examples of prohibited conduct that violates professional boundaries include, but are not limited to:

1. Disclosing personal, sexual, family, employment concerns or other private matters to one or more students.
2. Exchanging notes, emails or other communications of a personal nature with a student.
3. Giving personal gifts, cards or letters to a student without written approval from the building principal.
4. Touching students without a legitimate educational reason. (Reasons could include the need for assistance when injured, a kindergartner having a toileting accident and requiring assistance, appropriate coaching instruction, or appropriate music instruction).
5. Singling out a particular student or students for personal attention or friendship beyond the ordinary professional adult-student relationship.
6. Taking a student out of class without a legitimate educational reason.
7. Being alone with a student behind closed doors without a legitimate educational reason.
8. Initiating or extending contact with a student beyond the school day or outside of class times without a legitimate educational reason.

15. Telling a student personal secrets or sharing personal secrets with a student.
16. If a student initiates such discussions, the student should be referred to the appropriate school resource.
17. Furnishing alcohol, drugs or tobacco to a student or being present where any student is consuming these substances.
18. Engaging in harassing or discriminatory conduct prohibited by other district policies or by state or federal law and regulations.

Electronic Communications -

For purposes of this policy, **electronic communication** shall mean a communication transmitted by means of an electronic device including, but not limited to, a telephone, cellular telephone, computer, computer network, personal data assistant or pager. Electronic communications include, but are not limited to, emails, instant messages and communications made by means of an Internet website, including social media and other networking websites.

As with other forms of communication, when communicating electronically, adults shall maintain professional boundaries with students.

Electronic communication with students shall be for legitimate educational reasons only.

When available, district-provided email or other district-provided communication devices or platforms shall be used when communicating electronically with students. The use of district-provided email or other district-provided communication devices or platforms shall be in accordance with district policies and procedures.

All electronic communications from coaches and advisors to team or club members shall be sent in a single communication to all participating team or club members, except for communications concerning an individual student's medical or academic privacy matters, in which case the communications will be copied to the building principal. In the case of sports teams under the direction of the Athletic Director, such medical or academic communications shall also be copied to the Athletic Director.

Adults shall not follow or accept requests for current students to be friends or connections on personal social networking sites and shall not create any networking site for communication with students other than those provided by the district for this purpose, without the prior written approval of the building principal.

Exceptions

An emergency situation or a legitimate educational reason may justify deviation from the rules regarding communication or methods for maintaining professional boundaries set out in this policy. The adult shall be prepared to articulate the reason for any deviation from the requirements of this policy and must demonstrate that s/he has maintained an appropriate relationship with the student.

Under no circumstance will an educational or other reason justify deviation from the "Romantic and Sexual Relationships" section of this policy.

There will be circumstances where personal relationships develop between an adult and a student's family, e.g. when their children become friends. This policy is not intended to interfere with such relationships or to limit activities that are normally consistent with such relationships. Adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity.

It is understood that many adults are involved in various other roles in the community through nondistrict-related civic, religious, athletic, scouting or other organizations and programs whose participants may include district students. Such community involvement is commendable, and this policy is not intended to interfere with or restrict

an adult's ability to serve in those roles; however, adults are strongly encouraged to maintain professional boundaries appropriate to the nature of the activity with regard to all youth with whom they interact in the course of their community involvement.

Reporting Inappropriate or Suspicious Conduct

Any person, including a student, who has concerns about or is uncomfortable with a relationship or interaction between an adult and a student, shall promptly notify the building principal or Title IX Coordinator. Reports may be made using the Discrimination/Sexual Harassment/Bullying/Hazing/Dating Violence/Retaliation Report Form or by making a general report verbally or in writing. Upon receipt of a report, school staff shall promptly notify the building principal.

All district employees, independent contractors and volunteers who have reasonable cause to suspect that a child is the victim of child abuse, shall immediately report the suspected abuse, in accordance with applicable law, regulations and Board policy.

An educator who knows of any action, inaction or conduct which constitutes sexual abuse or exploitation or sexual misconduct under the Educator Discipline Act shall report such misconduct to the Pennsylvania Department of Education on the required form, and shall report such misconduct to the Superintendent, Title IX Coordinator and his/her immediate supervisor, promptly, but not later than fifteen (15) days following discovery of such misconduct.

If the Superintendent or designee reasonably suspects that conduct being reported involves an incident required to be reported under the Child Protective Services Law, the Educator Discipline Act or the Safe Schools Act, the Superintendent or designee shall make a report, in accordance with applicable law, regulations and Board policy.

It is a violation of Board policy to retaliate against any person for reporting any action pursuant to this policy or for participating as a witness in any related investigation or hearing.

Investigation

The Title IX Coordinator shall promptly access and address allegations of inappropriate conduct shall be promptly investigated in accordance with the procedures for reports of discrimination or Title IX sexual harassment.

It is understood that some reports made pursuant to this policy will be based on rumors or misunderstandings; the mere fact that the reported adult is cleared of any wrongdoing shall not result in disciplinary action against the person making the report or any witnesses. If as the result of an investigation any individual, including the reported adult, the person making the report, or a witness is found to have knowingly provided false information in making the report or during the investigation or hearings related to the report, or if any individual intentionally obstructs the investigation or hearings, this may be addressed as a violation of this policy and other applicable laws, regulations and Board policies. **Obstruction** includes, but is not limited to, violation of "no contact" orders given to the reported adult, attempting to alter or influence witness testimony, and destruction of or hiding evidence.

Training

The district shall provide training with respect to the provisions of this policy to current and new district employees, volunteers and student teachers subject to this policy.

acceptable reason for being late to class. Do NOT leave valuables in lockers! The school is not responsible for any items stolen from lockers, including gym lockers. Lockers may be searched when there is reasonable suspicion that the locker contains materials which pose a threat to the health, welfare and safety of students.

STUDENT ASSISTANCE PROGRAM

The Student Assistance Program (SAP) was created to identify and help students who are experiencing social, emotional, or physical problems that are detrimental to their success in school and to themselves as people. The program is designed to be an intervention, not a treatment or cure. It provides a means for teachers and school staff to help students through difficult times.

The focal point of the program is the "SAP Team" which is a group of specially trained professional educators. The members of the team may include the Superintendent, Principal, Guidance Counselor, Teachers, School Nurse, Drug and Alcohol Counselor, Mental Health Counselor, and Children and Youth Counselor. Their training has prepared them to help students in behavior areas such as alcohol and drug abuse, child abuse, eating disorders, suicide, pregnancy, peer pressure, personal loss, and dysfunctional families. Students may refer themselves or may be referred by anyone else in the district who has a concern for their well-being. The philosophy of the team is to be available to any student who may be in need to extra support. The purpose of the team is to identify and refer on an "as needed" basis.

In addition, the Board prohibits **possession and use** by students of any device that provides for a wireless, unfiltered connection to the Internet.

The district shall not be liable for the loss, damage or misuse of any electronic device brought to school by a student.

Delegation of Responsibility

The Superintendent or designee shall annually notify students, parents/guardians and staff about the district's electronic device policy by publishing such policy in the student handbook and other efficient methods.

Exceptions to the prohibitions set forth in this policy may be made for health, safety or emergency reasons with prior approval of the building principal or designee, or when use is provided for in a student's individualized education program (IEP) or Protected Handicap Service Agreement.

Guidelines

Violations of this policy by a student shall result in disciplinary action and may result in confiscation of the electronic device.

The confiscated item shall not be returned until a conference has been held with a parent/guardian.

Electronic devices are prohibited in restricted access areas and areas where personal privacy is expected (i.e., locker rooms, restrooms).

The transmission of unauthorized or confidential information is restricted through electronic devices.

Cellular telephones that have the capability to take photographs or to record audio or video shall not be used for such purposes while on district property or while a student is engaged in school-sponsored activities, unless expressly authorized in advance by the building principal or his/her designee.

The district may also conduct direct certification on a weekly or monthly basis.

Accommodating Students With Special Dietary Needs & Allergies

If your student has special dietary needs/allergies please fill out a medical plan of care, found on our website, and return it to the school nurse.

School Meal Service and Accounts

To ensure the effective operation of the district's food service program and delivery of school food program meals to students, the district shall assign individual school meal accounts to each student for the purchase of extra ala carte items served in school cafeterias, which ensure that the identity of each student is protected.

This policy and any applicable procedures or administrative regulations regarding school meal charges and school meal accounts shall be communicated annually to school administrators, school food service personnel, other appropriate school staff, and contracted food service personnel.

The district shall provide parents/guardians with a written copy of this policy and any applicable procedures or administrative regulations at the start of each school year, when a student enrolls in school after the start of the school year, and when a parent/guardian is notified of a school meal account balance.

INTEGRATED PEST MANAGEMENT

The Northern Tioga School District uses an Integrated Pest Management (IPM) approach for managing insects, rodents and weeds. Our goal is to protect every student from pesticide exposure by using an IPM approach to pest management. Our IPM approach focuses on making the school building and grounds an unfavorable habitat for these pests by removing food and water sources and eliminating their hiding and breeding places. We accomplish this through routine cleaning and maintenance. We routinely monitor the school building and grounds to detect any pests that are present. The pest monitoring team consists of our building maintenance, custodial, office, and teaching staff and includes our students. Pest sightings are reported to our IPM coordinator who evaluates the "pest problem" and determines the appropriate pest management techniques to address the problem. The techniques can include increased sanitation, modifying storage practices, sealing entry points, physically removing the pests, etc.

From time to time it may be necessary to use chemicals to manage a pest problem. Chemicals will only be used when necessary and will not be routinely applied. When chemicals are used, the school will try to use the least toxic products when possible. Applications will be made only when unauthorized persons do not have access to the area(s) being treated. Notices will be posted in these areas 72 hours prior to application and for two days following the application.

Parents or guardians of students enrolled in the school may request prior notification of specific pesticide applications made at the school. To receive notification, you must be placed on the school's notification registry. If you would like to be placed on this registry, please notify the district in writing. Please include your email address if you would like to be notified electronically.

If a chemical application must be made to control an emergency pest problem, notice will be provided by telephone to any parent or guardian who has requested such notification in writing. Exemptions to this notification include disinfectants and antimicrobial products; self-containerized baits placed in areas not accessible to students, and gel type baits placed in cracks, crevices or voids.

Each year the district will prepare a new notification registry. If you would like to be on this registry, respond in writing to the Superintendent's Office, Northern Tioga School District, 110 Ellison Road, Elkland, PA 16920.
